Fair Haven, VT 05743

CABLE, Wis. — The Telemark Lodge, almost two hours from any major city or airport, sits in the backwoods of northern Wisconsin. It used to wait for visitors.

It's a massive edifice, just outside Cable (population 281), with beds for 650, convention halls, numerous restaurants and bars, a theater, saunas, swimming pools, a golf course, alpine and cross-country ski trails, etc., etc.

In other words, Telemark is a major resort.

Tony Wise, the developer of Telemark, used to have trouble getting people to visit the place. In 1973 he decided to host a ski race as a promotion. A total of 53 people showed up for a 55-kilometer romp through the Wisconsin woods.

At 9 a.m., February 25, 1978, a gun sounded to mark the start of the American-Birkebeiner VI.

Immediately 5,528 skis and 5,528 poles attached to 2,764 bodies began flailing toward a destination 34.3 miles away. Twelve hours later, there were about 5,000 people hanging around the bars, restaurants, swimming pools

and dance floors at the Telemark Lodge recovering from one of the most exciting American-Birkebeiners in its six-year history.

The promotion seems to have worked.

But, more importantly, the American-Birkebeiner is a helluva well-organized event — perhaps the most well run ski competition in North America. This means that it's a great race for participants, spectators, press and the sport of skiing.

There is something for everyone.

For Alfred Kaelin there's a laurel wreath of victory as the first of 1701 skiers to

cross the finish line at 55kms, perhaps helping to compensate for not being at Lahti, Finland, for the World Championships on a Swiss team which he led to a bronze medal in the 1972 Olympic relay.

For Randy Kerr, the first American man to cover the 55kms, there's a trip to the Norwegian Birkebeiner for his first European competition in three seasons.

For Denise Green, the fastest American woman over 55kms, there's a trip out of the laundry room at Telemark to Norway for that nation's Birkebeiner.

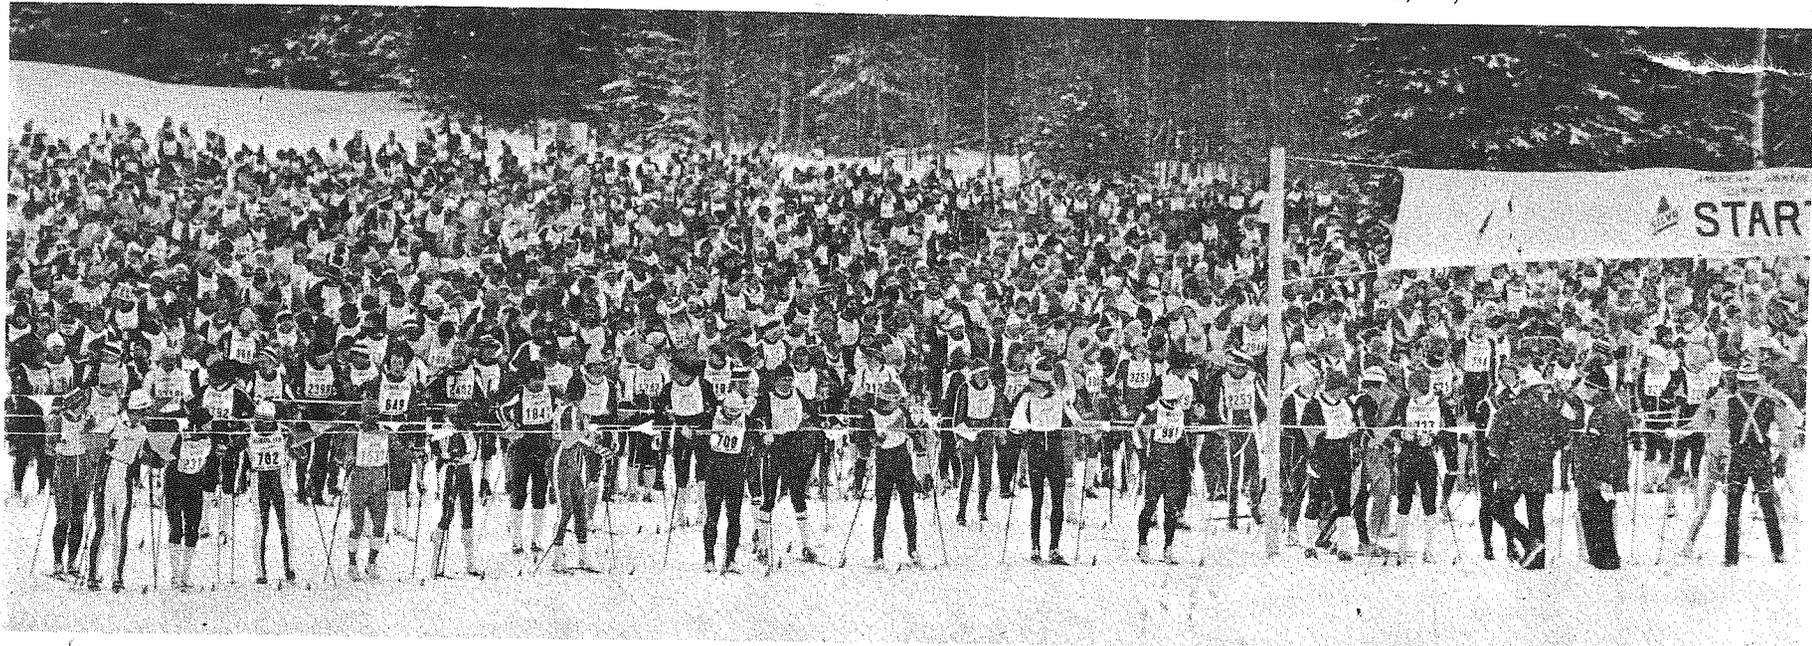

For Kevin Brochman, 18,

who won the 27.5km Korteloppet race for those under 19 and novice skiers, there's a taste of victory in a yet young career.

For Valborg Ostberg, a 43-year-old Norwegian grandmother, there's the satisfaction of finishing first over 55kms among women and 43rd among men.

For another, unidentified, 55km woman finisher there's the apparent ecstasy — she was jumping and shouting all around the finish area — of bettering her time in the Birkebeiner by an hour-and-a-half, from seven hours in

(Cont. on page 3)

ANTICIPATION—Thousands of skiers eagerly await

# 1977 Kaelin Brings Birkebeiner Laurels To Switzerland

It could have been any of six skiers crossing the finish line first in the American-Birkebeiner VI. It was that tight a race. But it was a Swiss skier, Alfred Kaelin, who took over the lead in the latter stages of the grueling race, bringing the honors and laurels to Switzerland after four years of domination by Norwegian and American skiers.

Much of the pre-race publicity went to Euroloppet champion Pauli Siitonen, Finland. But it was no fluke that Kaelin defeated the 42-year old champion. Kaelin's credentials were genuine. His list of Swiss 50 kilometer championships dates back to the early 70's, not to mention a seventh in the 50 km at the FIS World Championships in 1974 in Falun, Sweden.

Kaelin, and countryman Albert Giger, have been regulars in standings of the prestigious Swiss Engadin ski marathon with Kaelin taking the title in 1974, and finishing second in 1977. The two also have an Olympic bronze to their credit from the relay in Sapporo in 1972.

Kaelin, who is married with no children, works as a ski representative for the Fischer Ski Company.

Like most European

competitors, Kaelin commented on the toughness of the American Birkebeiner trail. Unlike the traditional European courses with long sweeping uphill and downhills, the course at Telemark is up and down, up and down, for the length of the 55 kilometer course.

## *Silva Ski, A Great Group Of People To Work With*

When Silva sponsors an event you get a lot more than the exact money figure that they're in for. From the onset of our relationship with them their desire to be sure that they did things the "right" way was obvious. They were cordial, cooperative and they delivered the goods on time. In short, they met their end of the bargain.

But there's more and much more than we expected. The Silva people permeated the lodge with their presence. A Silva Welcome sign adorned the Lobby entryway and the blue jacketed Silva personnel stood by this, helping racers out throughout the weekend and making sure they did what they could for anyone who asked or looked as if they needed help — including race personnel.

A product booth in the Registration room ended up being an outlet for racers with questions on wax, equipment and other race related matters. Their officials were on hand on race morning to see that individuals suffering from race-fever confusion got pointed in the right direction to get to the starting line, to cover the event for their television station, or to find out where the nearest cup of coffee was. They were available to do extra work that no one else seemed to have time for. In fact, in a rushed moment promoter Tony Wise mistook Silva secretary Diana Bienstock for a Telemark temporary secretary and rapidly fired orders for her to carry out immediately. After several futile attempts to explain to him that she was "only borrowing a typewriter for a few minutes" Diana typed up the material for his approval and did some last minute XEROXING. Later her boss, Denis Quinlan introduced Tony to "his secretary."

There were other instances which provided unexpected pleasure, such as the availability of a company plane to fly press material to the wire services — a handy resource to have in Northwestern Wisconsin. At the finish line Silva officials noticed that a scattering of racers looked like they needed some warm shelter as they had either had their clothing bags misplaced, were waiting for friends to pick them up, or just looked too cold to stand outside any longer. Their Press motorhome became a haven for these people while still serving the press.

Were we satisfied with our involvement with Silva? Absolutely. They're a great group of people to work with — they want to serve people's needs. They appreciated the personal triumphs that every finisher they witnessed had achieved and we hope that they realize they were an integral part of Birkebeiner VI.

# Heroes of Norway—Bakken Takes Norwegian Title

by Frances Wise

The Norwegian Birkebeiner was held Sunday March, 19, 1978. A beautiful sunny day and crowds of spectators set the stage for Anders Bakken's overall win in a time of 3 hours, 14 minutes, 4 seconds. He was followed closely by many of his Norwegian countrymen as well as a group of American - Birkebeiners—Randy Kerr, Mitch Mode and Denise Green.

If anything is obvious from a look at Norwegian Birkebeiner results, it is the amazing longevity of a Norwegian racer. Whether it be on the touring or competitive level, they are tough and they stay tough.

It was four years ago that Tony Wise began the Norwegian - American Birkebeiner exchange, bringing 1974 Norwegian - Birkebeiner victor Dag Amnarkrud to Telemark. Chris Haines beat Amnarkrud that year and represented the American - Birkebeiner in the Norwegian race. This year's results show Amnarkrud 5th in his age class and only ten minutes behind the overall winner.

The second exchange brought Audun Kolstad from Norway to stake a Norwegian claim on the American title, barely beating American John-Mike Downey. John-Mike and Duncan McLean followed him back to Norway where the same finish was recorded. Kolstad's first

back again to defend his title at American - Birkebeiner V; it did stay in Norway but went to teammate Bjorn Arvnes.

With that race behind him, Kolstad went back to Norway and edged out all other competitors to retain his Norwegian - Birkebeiner crown. This February both Arvnes and Kolstad were back on the now familiar Telemark scene for American - Birkebeiner VI. They did well placing fourth and seventh respectively behind the likes of Alfred Kaelin, Renzo Chiocchetti, and Pauli Siitonen. This year's Norwegian race was won by Anders Bakken but Kolstad was first in his class and Arvnes fifth. No Norwegian crown for either this year, but they'll be a threat for years to come.

The young women (Class 10, women 20-34) broke the barrier at the Norwegian - Birkebeiner this year. It has only been two years since women have been allowed to officially compete in the Norwegian race. Both years have found Class 11 (women 35 & over) dominating the winners' circle. Berit Mordre Lammedal captured the combined Norwegian - American Birkebeiner crown in 1977 and Valborg Oestberg claimed the dual crown with her win at American - Birkebeiner VI; and she's a 47-year-old grandmother, no less. Oestberg was ill and unable to compete in the Norwegian - Birkebeiner this

domination by winning the women's overall for Class 10. Class 11's winner, Svanhild Roeri was on her heels followed closely by the famed Berit Mordre Lammedal.

They're definitely not ready to be written off. Hjordis Klomteig who took the honors in the Class 10 women's division at the American Birkebeiner charged back to

a fifth place finish in the same Norwegian class.

The Norwegians are tough—there's no doubt about

(Cont. on page 4)

**A VICTORY FOR GRANDMOTHER OESTBERG** — 46-year old Valborg Oestberg beams with pride following her victory in the American-Birkebeiner VI women's division. The 1977 Norwegian-Birkebeiner champion proved victorious again in the women's class while placing an incredible 37th overall. Valborg crossed the finish line in 3:41:30.66. Unfortunately, she was unable

1977 to five-and-a-half hours this year.

For George Entwhistle, there's the honor of finishing dead last among the 55km skiers with a time of nine hours and 25 minutes — six hours and 15 minutes slower than Kaelin.

For Roone Arledge, head of ABC television sports, there was a letter requesting coverage of cross-country races, like "the American-Birkebeiner." A roll of shelf paper was filled with signatures of many of the thousands of ski fans around the lodge.

For the 1,697 55km finishers, there's an American-Birkebeiner medallion signifying their feat.

For the 576 who covered 27.5kms there's a Korteloppet medallion for their efforts.

For the 491 skiers who failed to complete their distance, there's the experience of participating in a mass start involving 2,764 people.

And that mass start is quite a sight.

"That's amazing," exclaimed one of the several hundred spectators — outnumbered by the starters — at the start area. "I'm really glad we came to see that . . . amazing."

The adjective amazing was heard over and over during the day. From the almost eerie "swish, swish, swish," of 5,528 skis shifting over the snow through the near blizzard at the start to the skier who yelled, "Hi, Mom!" at the crowd around the lodge

after the first downhill, to another who shouted "thanks for coming, everyone," to the cheering spectators — it was amazing.

Although Kaelin insisted at the finish that skiing 55kms isn't "so hard," most of the participants certainly appreciated all the aid they could gather. Nine feeding stations were supplied with ERG (a supplement of electrolytes and glucose) and oranges, passed to the skiers by volunteers from the villages of Cable and Hayward.

Several of the locals spoke Norwegian, which came in handy — and friendly — for the numerous Norwegian natives who traveled to Wisconsin for the event.

But the winner was a German-speaking Swiss, a 29-year-old veteran of his national cross-country team, who managed to take the lead at the finish after avoiding that position for most of the 55 kilometers.

Snow fell during much of the night and morning, leaving up to three inches of snow, new stuff on the carefully and arduously prepared double track to Hayward from Telemark.

"Every two or three kilometers the lead would change," explained U. S. Cross-Country Team member Randy Kerr. "No one wanted to lead because it's hard to ski new snow into the track."

So six of the Europeans, imported by Tony Wise to add an international flavor to the Norwegian-inspired event, traded off the lead. At about

23kms, the lead pack of Europeans took off: "They really got serious then," said Kerr.

The lead changed frequently as the pack approached the finish. At 50kms Sune Asph, 31, of Sweden, was ahead, but three kilometers later it was Pauli Siitonen, a 40-year-old Finnish policeman who dominated the 1977 European marathons, in the lead.

But "lead" was being defined as the difference of two seconds, so when the pack of "leaders" rounded across the lake in Hayward into the finish sprint, it was anyone's race.

In one of the most exciting finishes in the six-year history of the American-Birkebeiner, six skiers poled and pushed over the line with 16 seconds of each other — 55 kilometers came down to a battle of centimeters.

Kaelin came out ahead of the tip-to-tail battle with a time of three hours, 19 minutes and 4.35 seconds — just 2.45 seconds ahead of Italy's Renzo Chiocchetti, a 32-year-old three-time Olympian. Siitonen, the Finnish Euroloppet leader, wound up third in 3:10:08.34, under two seconds behind the Italian.

Siitonen was a mere 2.45 seconds ahead of the 1977 American-Birkebeiner winner, Bjorn Arnes of Norway. In short order, Asph took fifth place in 3:10:17.17 and sixth place went to Albert Giger, 32, and 11-year-veteran of the Swiss national team, who finished in

3:10:19.63.

It was a breather of not quite two minutes for the crowd in the finish area before the 1976 American-Birkebeiner champ, Norway's Audun Endestad, the local favorite, finished ninth, just 2.05 seconds behind Kerr. Another Telemark racer from Norway, 21-year-old Sten Fjeldheim, was 10th, less than a minute behind.

"Am I tired," Fjeldheim muttered as he was being handed his Birkebeiner medal. "My head is still spinning."

Kerr was also flying. "It's really gratifying to earn a trip to Europe," the ski team member grinned. Telemark's Wise gives a trip to the Norwegian Birkebeiner, after which his race is patterned, to the fastest American man and woman over the 55km line. "I'm really happy, especially since I haven't raced in Europe since 1975."

Kerr is a veteran of the national team who hasn't quite developed the pace of team leaders like Bill Koch and Tim Caldwell and Stan Dunklee.

But he had a good pace going at Telemark. He used a special feed which he carried with him throughout the race. "It's mostly caffeine and in common use," Kerr described. "One swig and you're up for chasing a bear with a switch."

Kaelin, who was grinning almost as broadly as Kerr, said the course was "very hard" because of the steep, rather than gradual hills

which typify most European marathons. He implied, in his broken English, he had been disappointed not to make the Swiss FIS team for Lahti, but he had been sick much of the season. He was gracious in his win here.

As was Valborg Ostberg, the diminutive Norwegian grandmother, who was the quickest of the women over the finish line, covering the distance in the 43rd fastest time of 3:41:30.66. Her compatriot Hjordis Klomteig was second among the women, just under 10 minutes later.

Denise Green finished 75th overall in three hours, 57 minutes as the fastest U. S. woman. "I just hope I broke four hours," the Pontiac, Michigan, native commented at the finish.

She's been skiing for six years and it was her third Birkebeiner. She's a member of the Telemark Racing Club and works in the lodge's laundry room to pay her way for the first real coaching she's had.

"You bet!" she grinned when asked if she was looking forward to the trip to Norway. She's 25 and a graduate in physical education at Northern Michigan University.

As Green smiled for the photographers and for herself at a sub-four-hour finish, there were about 2,000 skiers still on the course.

They smiled when they finished, too.

# Americans Do Well In Norway

LILLEHAMMER, NORWAY — For three American skiers, the Norwegian Birkebeiner has been an experience of a lifetime. Randy Kerr, Norwich, Vermont, Mitch Mode, Rhineland, Wisconsin, and Telmark's own Denise Green were among more than 3,000 skiers in the starting field at Rena, Norway, Sunday, March 19. The trio were guests of Telemark as leading Americans in the American Birkebeiner.

the race so we wouldn't have to travel from Lillehammer. I sure wouldn't mind coming back next year!"

Green was the top American woman in the American-Birkebeiner and finished well in Norway. The Pontiac, Michigan native finished 15th in the 20-34 year old bracket with a 4:31:23, good for the Twenty Five Percent Club.

U. S. Ski Team member Randy Kerr had hoped to be in Europe several months ago. But he didn't ski as well as he could have at the U. S. Nationals in early January to make the European squad. With that behind him, the Auburn, Maine native set his sights on the American Birkebeiner and the trip to Norway for the top American competitor.

Kerr was the top American in Norway, as well, finishing 29th in his 25-29 year age bracket. "There are a lot more really good skiers over here in Norway right now," remarked the 28-year old Kerr. "It's part of their heritage — everyone skis and skis a lot."

Unlike the American-Birkebeiner, the Norwegian race is started by age groups. Kerr and Mode's age group was one of the last to start which did cause some problems for the American

problems on the trail," said Kerr. "It seemed like I was constantly having to pass skiers that had started ahead of me. I think it cost us about 20 minutes."

Mitch Mode, 28, has become quite well known around Rhineland following his finish as top American touring skier in the American-Birkebeiner. Well over 100 local skiers turned out to send him off to Norway with a commemorative banquet March 2.

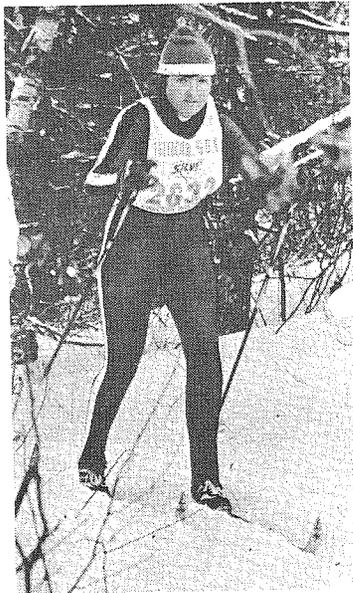

morning but warmed up as the day went on. We waxed green."

The American skiers arrived in Norway March 14 and spent several days training on the last portion of the 55 kilometer trail near Lillehammer. They were guests of the Breiseth Hotel in Lillehammer, the American

skiers' home away from home.

Mitch and Denise spent the days following the race sightseeing and skiing at a variety of touring areas.

Randy, who works for Adidas, traveled to France to look over the Adidas test facilities, before returning to America March 26

DENISE GREEN

"It's been just fantastic," said Green following the race. "Everyone here has gone out

MITCH MODE

Mode did quite well in the Norwegian race, finishing 63rd in his age class in 3:54:18. "The course seemed a lot tougher over here," he commented. "There were a lot of really long uphill. Fortunately, it was an easy

ON TO NORWAY—U.S. Ski Team member Randy Kerr and Telemark's Tony Wise are all smiles

# Birkebeiner Memories

## Every Skier A Champion

By TOM KELLY

Telemark Public Relations Director

Well, it's all over for another year. And what a race it was. American-Birkebeiner VI was about as exciting a ski race as you could possibly hope for.

It's funny how in the weeks leading up to the race, when the work for the Telemark staff and officials seems endless, everyone says to one another, "Boy, I can't wait until it's over and things return to normal!" And let me tell you, things really hit a feverish pitch as racetime approached.

But as I stood on top of Morgedal Saturday morning, February 25, it was sad, in a way. Watching the mass slowly inching its way up the hill like a giant cloud moving across the sun, I could only think that it would be a whole year until I could be a part of the spectacle of the American-Birkebeiner again. And as racer after racer came across the finish line in Hayward, I just couldn't tear myself away to head back to Cable. But it wasn't the thrill of the International competition that kept me glued to the press stand—that spectacle had taken place hours ago.

It was late afternoon and the sun was moving rapidly towards the West. Peter Graves, the voice of the Birkebeiner, along with John Nimmer and Dan Cin kept reading the names off as racer after racer crossed the finish line.

But who were these racers? There was nobody special left to cross the line. It had taken these skiers hours longer than the champions to finish.

But these weren't ordinary skiers. They were champions. American-Birkebeiner champions—each and every one of the 1701 finishers. Even George Entwhistle who finished dead last was a champion that day.

There wasn't a laurel wreath awaiting them at the finish, but there was the satisfaction of finishing and having that medallion, heavy as it may have felt after 55 kilometers, displayed proudly around their necks.

The American-Birkebeiner VI meant a lot to a lot of people. Here's just a few of our thoughts on the race—the memories that will have to last until American-Birkebeiner VII.

+++++

Watching some of the finest skiers in the World kicking down the trail in their first training sessions and reaching the midway point in an hour and a half without even breathing hard.

+++++

Finding ways to communicate with skiers from other lands. And exchanging gifts with the foreign skiers—an exchange of pride between two nations.

+++++

Introducing our foreign guests to various American customs, and seeing the excitement in their eyes at the Indian Pow-Wow in the Lodge Thursday night.

+++++

Watching, with a sigh of relief, as the gun fired at exactly 9 a.m. and nearly 3,000 skiers inched their way up the hill.

+++++

The feeling of incredible excitement as Telemark's own Norwegian, Audun Endestad, a relative unknown, led the pack up the hill and out onto the trails, only to fall victim to a chest cold in the late stages of the race. A lot of us still think he could have won.

+++++

The gaping mouths and dropped jaws as a pack of six skiers sprinted to the finish. It will be tough to ever match that finish.

+++++

Seeing the tremendous look of accomplishment on the faces of Randy Kerr, Mitch Mode and especially Denise Green. Telemark couldn't have selected three finer people to represent us at the Norwegian-Birkebeiner.

+++++

Finally, the beaming smiles on the faces of skiers wearing their Birkebeiner and Kortelopet medals around the Lodge Saturday night. And for some reason, nobody even looked tired?

(Cont. from page 3)

it. Doing well doesn't prompt them to "quit while they're ahead," nor does dropping a place or having one bad race bury them and suggest retirement. To challenge the 55km trek in the best way they know how for year after year is to defy old age and flaccid muscles to creep up on the. Few will make thirty-seven consecutive races like 69 year old Birkebeiner King Oscar Gjoslien has thus far, but through the cultural exchange between our two countries the yearly challenge spirit has grown.

The Norwegians look to their Birkebeiner stalwarts like Oscar Gjoslien, Sigvard Egge and Olaf Dussegh for inspiration and we may certainly draw from their efforts also. Turn to our race, to John Waugus who made the entire 55 kilometer race with an artificial leg, to 66 year old Bill Andberg who is remarkable at any age but didn't even begin sports competition until age 55, or to Neil Dewar from South Africa who learned about skis only this winter and you can see that we have some heroes, too.

# A Race For All Ages

## Somebody Has To Finish Last

by John Welter

Reprinted with permission of the Minneapolis Star. William Andberg, 66, is too busy to think about getting old. "I'm on the go all the time," the Anoka resident said. "I don't have time to think about aging."

In fact, old age would have trouble catching up with him. Andberg, a veterinarian, took up running at 55 and has set more than a dozen world records in his age group. Three years ago, the wiry doctor added cross-country skiing to his repertoire and has become a fanatic about that, too.

"I found that there's loneliness in cross-country skiing, too," Andberg explained. "It wasn't long before the good skiers were ahead of me, and the bad ones were behind me. I was in the woods for an hour by myself. I got an award for being the oldest male skier. But I didn't care for that."

And although the doctor admitted he was a little stiff after the long race, he was on hand for the 55-kilometer American-Birkebeiner.

"Why do I do it?" Andberg asked himself. "I'm basically competitive and enjoy associating with younger people. I suppose I get some ego satisfaction out of it. And it keeps me healthy. Anyone who's going to extend his life has got to stay in shape. I never smoke or drink. I never abused my lungs or heart."

"At 55 I found myself overweight and out of shape like a lot of people. So I started running in addition to golfing, bowling and fishing. They say that at 40 you've probably made your mark. I made mine a little later."

For his accomplishments, Andberg has been mentioned in Sports Illustrated's Faces in the Crowd and the Who's Who of Finnish Extraction and was featured on the cover of Running After 40. And although he has earned many trophies, few decorate the mantel in his living room.

"I take the nameplates off and donate the trophies to local races," he said. "You know what my wife says?" he asked, holding a silver cup he won in a 10,000-meter race. "It's a good dish for nuts."

As a student at the University of New Hampshire, Andberg was a national snowshoeing champion in addition to running cross-country, the 2-mile in track and pole vaulting. "I was in my early 20's before I slowed down," he recalled. "I suppose I'm hyperactive, but I never walked anywhere; I always jogged."

Subsequent tests have revealed that Andberg has a large lung capacity, low blood pressure (106-70) and a slow pulse. "Last year before the world championships in Sweden it was down to 36 beats a minute," he said.

He eats sparingly — a little breakfast, no lunch — and limits himself to vegetables, fish and poultry. He avoids fats and uses a lot of vitamins, including Vitamin E, which he says slows down aging.

"There are so many things I want to do, and time is short," he explained. "Every birthday is a challenge. What am I going to do? For my 65th birthday I was going to run 65 miles, but thought it would be a waste of time. So I ran 65 times around the track."

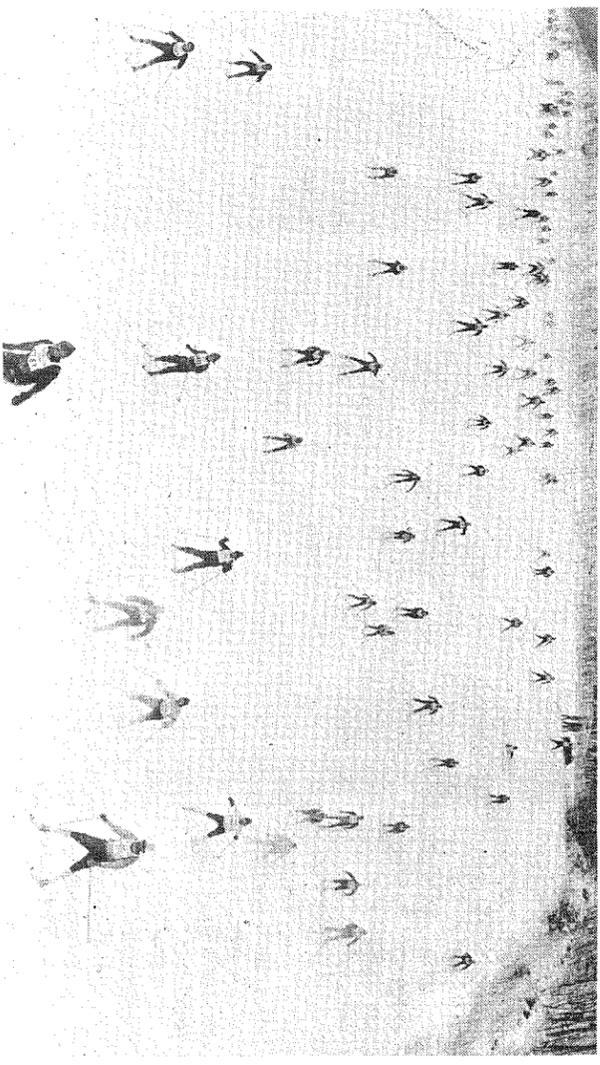

"Sometimes I get so frantic, and I spread myself pretty thin. But everything is a learning process. I try to carry something over from every race. If I live long enough I'll learn. I hope I live long enough to learn a lot."

CABLE, WI — Experience does count for something in the American-Birkebeiner as Tom Cartrae has learned. Cartrae was the last person to finish the 1977 Birkebeiner marathon — a grueling 55 kilometer trek through the Wisconsin Northwoods. Saturday, February 25, however, he cut well over a quarter-hour off last year's time and finished ahead of 13 other Birkebeiner finishers. Last place laurels for the 1978 Birkebeiner went to George Entwistle, Arlington Heights, Illinois, who gamely legged his way to the finish line in 9:25:52.18.

"I feel like I went through a garbage compactor," said Entwistle, whose total cross country experience up the American-Birkebeiner had been "four kilometers of beginner lessons, at the most." Entwistle was guided through the darkness by the lights of three officials' snowmobiles. Both Entwistle and Cartrae, a Cedar Rapids, Iowa skier, finished well after dark, long after most of the spectators had left the Lumberjack Bowl finish area in Hayward.

The strategy Cartrae employed in relinquishing his title was simple. He did all of his training this year at Telemark, spending a weekend skiing about 40 kilometers several weeks before the Birkebeiner.

There's little doubt that both Cartrae and Entwistle will avoid the "honor" of a last place finish with the experience they have gained in the race. Both are involved in jogging and cross country running. Cartrae tuned up with several 13-mile runs last summer, and Entwistle said was the main impetus to finish the personal challenge. Even if it resulted in finishing number 1701.

COMIN' DOWN STORMOEN—Skiers fly down Stormoen on their way onto the Birkebeiner trail.

## Registration A Success

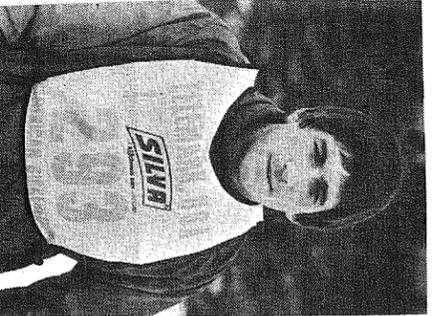

We have had many comments on the cooperation and friendliness of the area people who helped racers pick their racer packets up and checked through with them to see that they had the proper materials enclosed. In addition to this, they answered many questions putting anxious minds at ease. The following may be credited and thanked for their services:

From Cable:  
Connie Depia  
Lois Beaudreau

Most of these same people will be back to serve you next year.

# Birkebeiner Just A Little Bit Tougher For Waugus

JOHN WAUGUS.

John Waugus didn't let his handicap affect his completion of the Birkebeiner. The teenager finished the race with the aid of an artificial leg.

EDITOR'S NOTE: John Waugus, Marinette, Wisconsin was more than just another skier finishing the American Birkebeiner. John is the first one-legged skier to ever attempt the race. Using an artificial leg, he crossed the finish line in 7 hours and 16 minutes.

Dear Frances,  
The first thing I'd like to do is thank your father and you for making it possible for me to ski the Birkebeiner. I am truly grateful, thank you again.

I think the American Birkebeiner is a challenge and experience of a lifetime. I don't imagine it's the same experience for everyone, but when one has to sleep on a tile hard floor the night before the race, wake up at 4:00 a.m. in the morning, catch a bus and ride from Hayward to Cable, and then ski the American Birkebeiner, it's quite an experience. Not to mention sleeping on the same floor the night after the race. I stop and wonder if skiing the Birkebeiner was more of an experience than what I went through before the race and after the race. I do know one thing, I never experienced anything like what I did ever before.

What really made it an experience was all the people, after all, it wouldn't be the race it is without the people. Everyone I met was really terrific, the people I met before the race, during the race, and after the race. They were all so friendly and considerate. As for the race itself: wow!

There's just no way to explain the start of the race, except to say you have to be crazy to be out there in the middle of it all. As for the course itself, well let's say I did a lot of praying along the way. Every time I came to a little sign saying caution steep hill, I said a prayer asking that I'd make it to the bottom, only having to say another prayer so I could make it up the mountain in front of me. Wow! There were some mighty big hills.

That's where the training I did paid off. I lifted weights and worked out with them quite a bit. It helped climbing up all those mountains. The only other thing I did was ski as much as I could. I could only ski about twice a week, because that's all my leg could take. Usually skiing around 5 to 10 miles. The farthest I skied up until the Birkebeiner was 18 miles and I did that only once.

I sure was happy when I crossed the finish line. I didn't think I was going to make it when I was half way through. I don't really know why I kept going. I just had this feeling inside that kept me going. It sure felt good to cross that finish line.

I didn't really know what a challenge it was to ski the Birkebeiner until I got to the finish line. If I would have known what I had to go through to get there, I don't know if I would have made it.

After I crossed the finish line, I was happy it was over and I didn't feel like ever doing it again, but that feeling changed a few days later. I'll be back again.

# World Marathon League Planned

Representatives from the leading citizen cross country marathon races in nine countries met at Telemark on February 23 and 24th. The purpose of the meeting was to see if the Euroloppet idea could be expanded on a worldwide basis.

Delegates attending the meeting were Giulio Giovannini, Marcialonga, Italy; Robert Steiner, Dolomitenlauf, Austria; Fritz Lang, Kong Ludwig's Lauf, West Germany; Albert Giger, Engadin Marathon, Switzerland; Heikki Salo, Finlandia, Finland; Lars-Erik Larsen, Vasaloppet, Sweden; Arne Myhren and Leif Norberg, Norwegian Birkebeiner, Norway; Stephen Cushing, Riviere Rouge, Canada; Tony Wise, American-Birkebeiner, U. S. A. Also attending the meeting were Karl Snisberg, Lillehammer, Norway; John Lindstrom, U.S.S.A. Citizen Race Committee Chairman and Dick Simono, Telemark.

It was acknowledged by all representatives that there is a huge increase in the number of cross country citizen racers in the world. Last year over 27,000 persons competed in Euroloppet races and over 10,000 skiers competed in North American races. The largest races are the Vasaloppet and Engadin Marathon, both of which have over 10,000 competitors each year. Citizen racers enjoy going to competitions in countries other than their own. It was felt that a racer who completes the courses in all of the world's major citizen races has accomplished an outstanding feat. This feat should be honored in a systematic, organized manner much like the world famous Explorers Club honors explorers.

The World Loppet meeting at Telemark was called to see if such an idea was worthwhile and to lay the groundwork for the next meeting which will be held in Stockholm, Sweden, on June 10, 1978, in conjunction with the Euroloppet annual meeting.

The following points of agreement were reached at Telemark:

1. A World Loppet organization is needed.
2. Such an organization would work with the F.I.S.
3. The individual integrity and character of each national race would be maintained.
4. The present dates of national races would be maintained.
5. All races would be 55 Km or longer.
6. Mass starts would be adhered to.
7. Elite racers would be in the first line of all races.
8. World Loppet medallions would be issued at the annual meeting to those who have completed all races. No time limit was placed on how long this could take. All medallions would be numbered. Low numbers would be prestigious.
9. An elite division would be created. This racer would have to compete in at least six races a year. One of their races would have to be in North America, one in Scandinavia and one in Central Europe. The other three could be of their own choosing. A World Loppet Champion would be declared at the end of each season and he would be honored at the annual meeting.
10. The annual meeting would be held in April or May each year and in a different country each year. Every fourth year the meeting would be held in North America.
1. A simple organization is desired. This would be accomplished by rotating management of the organization

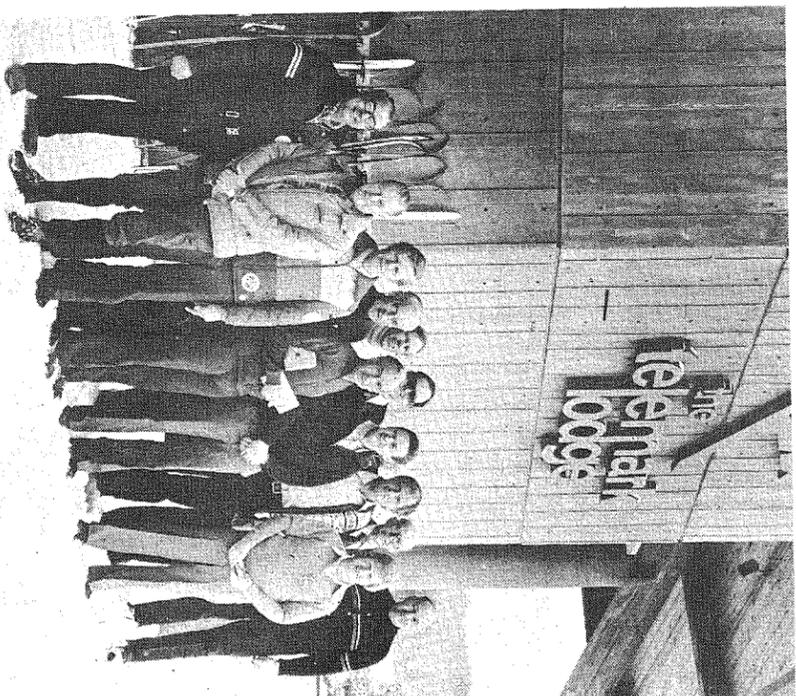

## Sitonen Repeats As Euroloppet King

Finland's Pauli Sitonen domination of European won his fourth Euroloppet marathon races that has title this season with a never been seen before. The

### Ski, Bike, Swim, Run — Marathons For All

Lars-Erik Larsen of the Swedish Vasaloppet Committee related an interesting series of marathon events held in Sweden. It is called the Swedish Classic Series and consists of the 65 Km Vasaloppet Ski Race, a 300 Km Bicycle Marathon, a 3 Km Swimming Marathon and a 30 Km Cross Country running race. If a person completes all four events in one year, he wins a Swedish Classic Marathon medallion.

Tony Wise would like to have feed back from devotees of the above four mentioned sports to see if such a series of events would be popular in the U.S.A. The American-Birkebeiner would be one of the races. Then Wise is contemplating running a 200 Km bicycle race to be called the "Hayward to Hurley to Hell" bicycle marathon in May or June. A 3-mile swim in Lake Hayward starting and finishing at Lumberjack Bowl to be called the Musky Marathon in June or July and a 30 Km cross country running marathon to be run on the cross country ski trails at Telemark in August or September and to be called the Telemark Marathon. If anyone has interest, write Tony Wise, Telemark, Cable, WI 54821.

**FIRST "WORLDLOPPET LEAGUE" MEETING,** Telemark, Wisconsin, U.S.A., February 23-25, 1978— Delegates from nine countries attended American-Birkebeiner VI and the first "Worldloppet League" meeting. (Left to right) Dick Simono, Telemark, U.S.A.; Leif Norberg, Norway; Heikki Salo, Finland; John Lindstrom, F.I.S., U.S.A. Ski Association; Guilio Giovannini, Italy; Lars Eric Larson, Sweden; Karl Snisberg, Norway; Robert Steiner, Austria; Fritz Lang, West Germany; Stephan Cushing, Canada; and Ton Wise, Telemark, U.S.A. Missing from picture is Albert Giger, Switzerland.

each year among member races. It was felt each race has a strong executive staff and that it could assume World Loppet business responsibilities and duties for one year with no great strain.

12. Each country will submit a design for the World Loppet medallion by June 1, 1978 to the temporary secretary.
13. Risto Rytkoski, of Finland, Secretary of the Euroloppet race was appointed temporary secretary.
14. Each competitor agreed to hold at least a 10 percent block of openings in their race for World Loppet and other foreign racers.
15. If the World Loppet idea becomes a reality then all member countries would promote the idea with World Loppet insignia on all their advertisements.
16. It was acknowledged that a World Loppet League would motivate international travel among citizen racers of the world. Such travel would create friendship and understanding and further the desire for peace and goodwill among member nations.
17. All of the above 16 points must be approved or disapproved by individual race bodies before June 1, 1978 so definite action can be taken at the June 10th meeting in Stockholm.

40-year old Finn never finished lower than second, entering four of five Euroloppet races. Victories in the 90 kilometer Kong Ludwig Lauf and the 75 kilometer Finlandia boosted him into the champion's throne once again. He was second in the Dolomitenlauf and Marcialonga. His three best finishes gave him a season total of 4 points, a near perfect record in the Euroloppet scoring system where top three finishes are added, with the lowest total (perfect season would be 3 points) taking the title.

The Euroloppet series opened with the 60 kilometer Dolomitenlauf in Austria January 22. East German Hhartmuth Frier edged Sitonen for that title in a field of 2,700. A week later it was Ulricho Kosner of Italy who edged the Finn in the snowy Italian Marcialonga. Over 20 inches of snow fell on the 70 kilometer course in hours prior to that race.

Sitonen virtually sealed the Euroloppet crown with a victory in the Kong Ludwig Lauf, a 90 kilometer test in West Germany February 5. After a month break, which included a third place finish in the American-Birkebeiner, Sitonen returned to his homeland to cap the Euroloppet with a victory in the 75 kilometer Finlandia.

Sitonen capped off his season with a thrilling third place finish in the Engadin

## Nordic World Cup To Lundback

OSLO, NORWAY—Sweden's Seven-Ak Lundback, with help from the 50 kilometer World Championship in Lahtti soared to the 1978 unofficial World Cup Crown. The final standings of the 11-race series were announced following the Holmenkollen, the final meet on the World Cup circuit. Lundback took the title from countryman Thorm Wassberg, the 1977 champion who finished fourth despite missing the final half of the season. Wassberg was injured in an automobile accident in early February. Lundback tallied 124 points using totals from his six best races. Norwegian Lars-Erik Eriksen was second with 116. Magne Myrmo, also Norway, was second with 91. The 1978 schedule included 11 races starting with the Telemark Other races were at Davos, Switzerland; Caselrotto, Italy; Reit Winkl, West German Ramsau, Austria; Brassus, Switzerland; World Championships Lahti, Finland; the Swedish Ski Games in Falun; and Holmenkollen in Oslo. There were no Americaners in the top ten.

## Birkebeiner Fever Cure

As each Birkebeiner becomes history, the event becomes more and more weeklong festival. Telemark would like to introduce Birkebeiner skiers to advantage of International festival and be offering a "Birkebeiner" lodging package "Fever" lodging packages the 1979 race.

And along the weeklong festivities, it's a perfect touch to put the finishing touch on your training program skiing at Telemark in days before the race with some of the top skiers in the world.

This is the first time a package has been offered Telemark. Reservation now being accepted for day Birkebeiner. The package which includes days of lodging, skiing, all Lodge facilities such as pool, sauna, hydrotherapy, and children's rate, as well as a full admission to all entertainment. The package runs from Monday, February 25, Sunday, Feb. 25. American Birkebeiner will be Saturday, Feb. 25. Rate sheets are available from the Telemark Lodge.

Typical rate for each based on double occupancy \$195.00 for the cross country package. Downhill, and children's rate, available as well as rates for single, triple and occupancy.

For more information write: Birkebeiner Telemark Lodge, Cable 54821 or call 715-798-3333.

### Senior Women's

#### 10 Kilometer, March 5

55 started, 49 finished.

Weather OK.

1. Dagmar Paleckova, CSF	30:23.23
2. Vigdis Ronning, NOR	30:28.76
3. Eva Olsson, SWE	30:36.98
4. Marit Myrma, NOR	30:45.79
5. Marie Johansson, SWE	30:49.34
6. Marion Bychner, DDR	30:51.62
7. Berit Johannsen, NOR	30:52.55
10. Alison Spencer, USA	31:05.63

### Junior Men's

#### 4 x 10 K. Relay

March 3

Finished 12th, time 2:14:03.25

Team: Galanes, Kempainen, Simoneau, F. Koch

### Senior Men's

#### 4 x 10 K. Relay

March 3 - 13 teams

1. Sweden	2:01:53.44
2. Norway	2:02:10.21
3. Czechoslov.	2:03:17.58
4. USA	2:04:17.97
5. Finland	2:04:43.92
USA Team: Peterson, Caldwell, Koch, Dunklee.	

### Women's 4 x 5 K. Relay

March 3 - 6 teams

1. Norway	1:08:36.90
2. Sweden	1:10:10.84
3. Czechoslov.	1:11:03.08
4. Finland	1:11:45.84
5. USA	1:13:24.75
USA Team: Haines, Spencer, Paxson, Valentine.	

### U.S. JUNIOR NATIONALS

#### Jackson Hole, Wyoming

Men's 7.5 kilometer

March 6, 1978

1. Kevin Brochman, TELEMAR	26:05.33
2. Rick Solie, Alaska	26:33.13
3. Carl Swanson, Northern Div.	26:39.13
4. Jim Lokken, Alaska	26:42.65
5. Lat Straley, Intermountain Div.	26:44.33
31. Will Andresen, TELEMAR	28:57.38
44. Dan Kahan, TELEMAR	29:18.16

### Men's 10 kilometer

March 10, 1978

1. Carl Swanson, Northern Div.	
2. Rick Solie, Alaska	
3. Alan Ackley	
7. Kevin Brochman, TELEMAR	
28. Dan Kahan, TELEMAR	
39. Will Andresen, TELEMAR	

### GLEN FALLS, NEW YORK

#### DANNON CUP SERIES

MEN, MARCH 7, 1978

1. Craig Ward, U.S. Ski Team	32:25
2. Bob Treadwell, U.S. Ski Team	32:29
3. Kevin Swigert, U.S. Ski Team	32:40
4. James Goodwin, Middlebury	32:54
5. John Sackett, Lyndon Nordic Center	33:11
13. John Kreizel, TELEMAR	34:36
17. Steve Pitmon, TELEMAR	35:00
18. Duncan McLean, TELEMAR	35:05
21. Roger Pekuri, TELEMAR	35:33
25. John Tormondsen, TELEMAR	36:04

### ERROR OR PROBLEM

1. Entry blank did not define refund or race change policy; nor did some include the address that they were to be mailed out.

2. Clothing bags were too small and the lettering fell off.

3. Competitors were at Historyland's Lumberjack Bowl prior to 8 a.m. but were unable to get to the start on time.

4. Parking at Telemar was inadequate for the amount of guests' cars that day.

5. Skiers were interfered with by photographers and spectators at the start, the bottom corner near the chairlift, and the crest of the hill.

6. The cannon at the start could not be heard. The military music was not audible to spectators.

7. Food stops were generally run very well, but lacked some things. Fluids were not always hot and some oranges were frozen. There wasn't enough water. There wasn't always someone there to see to the racers' official needs—if he wanted to drop out leave clothing, etc. The fifth station was not wide enough. Racers did not know what to expect from the stops from pre-race information.

8. The finish area for the Kortelopet was inadequate both for racers and spectators. Traffic was a problem for cars and buses. There was inadequate recognition for finishers in what is still a very long race.

ALTHOUGH WE PROVIDE THIS CRITIQUE OF OUR OWN, WE WELCOME LETTERS FROM YOU PROVIDING ADDITIONAL CRITICISMS AND SUGGESTIONS.

### EXPLANATION OR CORRECTIVE ACTION

1. These provisions will be added to the entry blank and clearly explained.

2. The bags will be bigger next year and will be printed with an indelible ink.

3. More buses will be available to competitors and extra time will be allowed for traffic problems. The last bus will leave no later than 7 a.m. from Historyland.

4. Summer bulldozing and leveling will provide us with the necessary additional parking facilities.

5. More fencing will be added and these as well as other additional areas fenced off to insure that racers are not interfered with.

6. We hope to procure a 105 mm Howitzer cannon on loan from the National Guard for next year's start. Additional speakers and a better P.A. system at the start will play music for the enjoyment of everyone.

7. Better methods of keeping the fluids warm and the oranges and other foodstuffs from freezing will be employed. Additional heavy foods will be served at the stations from midway on. More water will be available. A race official other than first aid personnel will be stationed at every food stop. The food station will be widened. The sixth station will probably be moved back to Fish Hatchery Road. More warm-up materials will be available. A list of what is going to be served at each station will be included in the racer packet. A sign prior to each food station will describe the food available at it. We will endeavor to provide large clocks at each station.

8. The entire area will be fenced and guards posted down the track to keep spectators off. The entire finish area will be widened and a spectator area provided. The food station will be moved to the other side of Hwy 00. The finish area will be much more festive with an awards ceremony for the winners, an announcer and music.

### ERROR OR PROBLEM

9. The course was somewhat slow for the front runners due to new snow. The course was not always open the week before the race.

10. The finish area for the Birkebeiner was crowded with not enough facilities for warm-up, first aid and press. The timing slips came out of the computer with a one hour delay and most could not wait that long. There was no telephone for public use and no information area for racers having difficulties.

11. The winner's ceremony at the finish was anti-climatic.

12. There was no way of knowing who won or any the other top finishers times and places.

13. Print outs of complete results were not available quickly enough. There was no way to differentiate competitors from citizen racers on the result sheets.

14. One travelling trophy was not available to its winner at the award's ceremony.

### EXPLANATION OR CORRECTIVE ACTION

9. A forerunning crew under one person will be lined up to insure good track for the first racers through. The entire course will be marked and groomed one week prior to the race and opened for inspection.

10. The finish area will be moved to nearby Old Hayward in all likelihood. This move will facilitate use of the permanent buildings there for much better warming, press, first aid timing, vending, and other facilities. Program error necessitated some last minute re-programming which then caused the delay in competitors' timing slips being printed out. This will be reconciled with the computer people before the race next year. A public telephone and racer information facility will be provided.

11. With the proposed move to Old Hayward the entire Awards area will be revamped to include a more visible area. We hope that the winner will ski a short victor's lap so that all spectators will have a chance for a better look at him with his laurel wreath on.

12. Possibilities of having a computerized scoreboard at the finish are being investigated.

13. We look to a much faster print-out of complete results with next year's computer arrangement. In addition to providing a class listing, both alphabetical and overall standings will be posted in the Lodge that weekend. A list of competitors will be fed into the computer and some differentiation made visible on the result sheet.

14. Travelling trophies will no longer travel. A souvenir award will be given to their winners and a picture of the winner will be displayed with the award in the permanent display in the Lobby.

# American-Birkebeiner Results

Following are the official results of the American-Birkebeiner VI. Results are listed overall, according to time. The results read as follows: Position overall; Name; Bib Number; Class (see age listings below); Standing with age-sex class; Hometown; Final Time; 25 percent Club Noted by star.

All Birkebeiner participants will also be receiving a copy of the April issue of Sports Spectrum, which will include a listing of all American-Birkebeiner finishers, listed alphabetically by hometown.

Individual classes are as follows:

- |                   |                            |
|-------------------|----------------------------|
| Class 1—Men 19-24 | Class 7—Men 50-54          |
| Class 2—Men 25-29 | Class 8—Men 55-59          |
| Class 3—Men 30-34 | Class 9—Men 60 and over    |
| Class 4—Men 35-39 | Class 10—Women 19-34       |
| Class 5—Men 40-44 | Class 11—Women 35 and over |
| Class 6—Men 45-49 |                            |

# Birkebeiner Fever

**THE PACK APPROACHES** — It was an awesome sight. Nearly 3,000 skiers moving en masse up Valhalla at the start of the American-Birkebeiner VI.

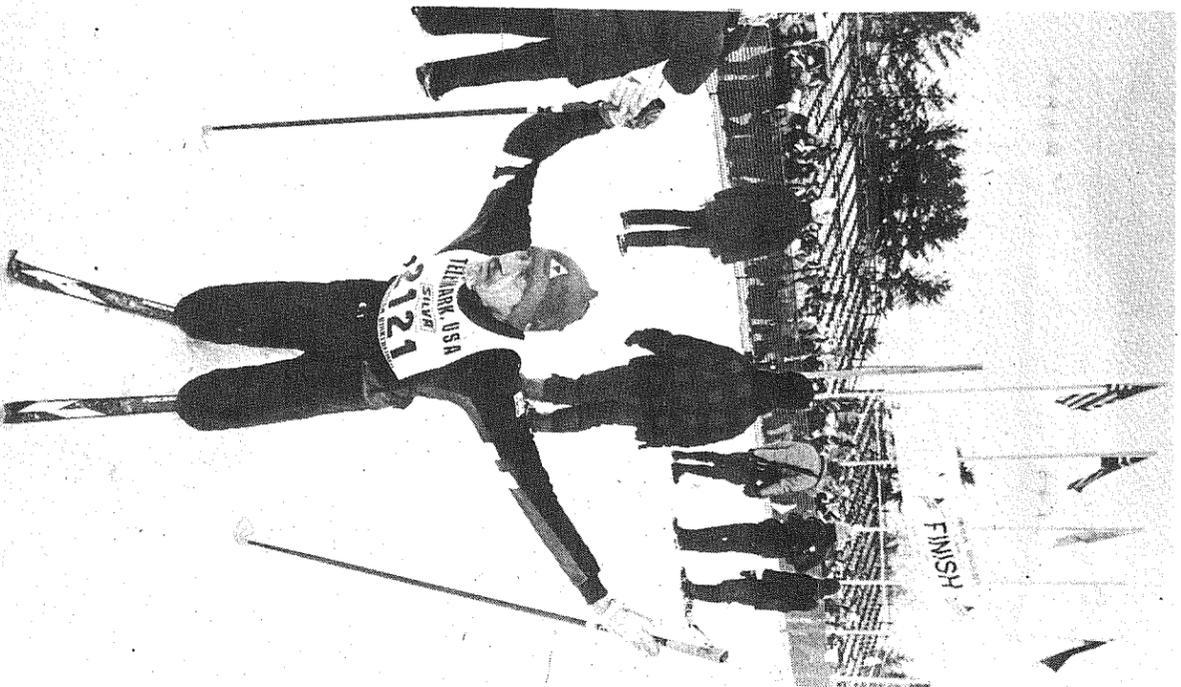

## 90 Percent Finish

To answer those of asked questions such "How many entries in American Birkebeiner" here are the vital statistics whopping 2717 entries year, with almost 90 percent of 55 kilometer race finishing the race!

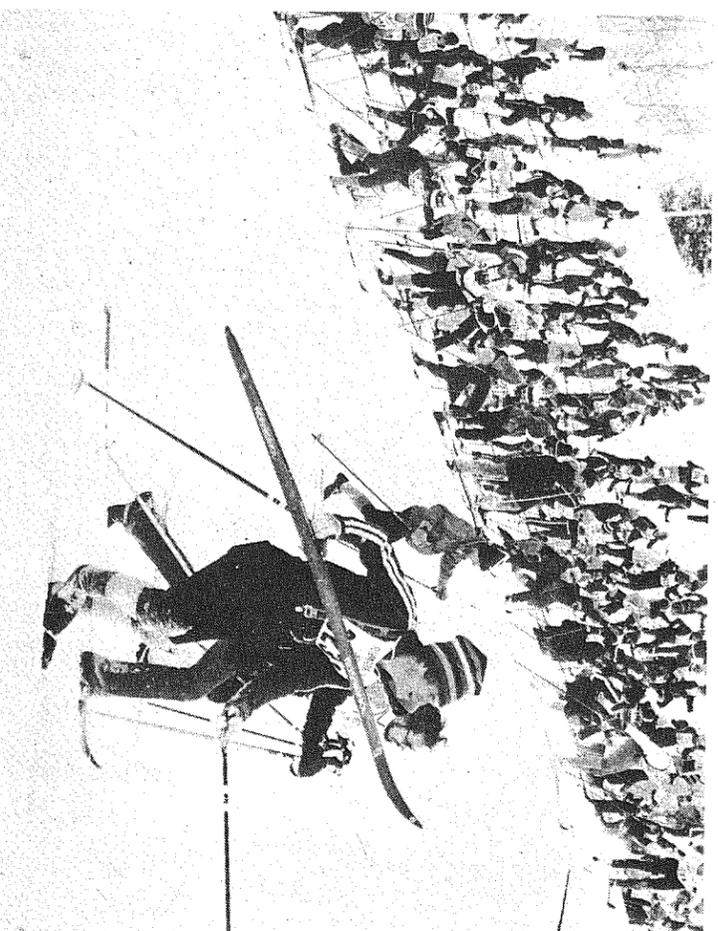

Total entries in 55 km race	..... 2
Total entries in Kortelopet	..... 2
<b>TOTAL ENTRIES</b>	<b>..... 2</b>
Total starters in 55 km race	..... 1
Total finishers in 55 km race	..... 1
Total finishers in Kortelopet	..... 1
Total finishers in both races	..... 2

**EVEN COUNTRY SINGERS CAN WIN A NASTAR MEDAL**—Telemark NASTAR Director Jack Hudson presents country singer Louise Mandreill with a Bronze NASTAR medal which she won in an alpine race Birkebeiner Week at Telemark. Louise and her band spent the entire week entertaining in the Laukka Theatre in the Lodge, as well as skiing during the day.

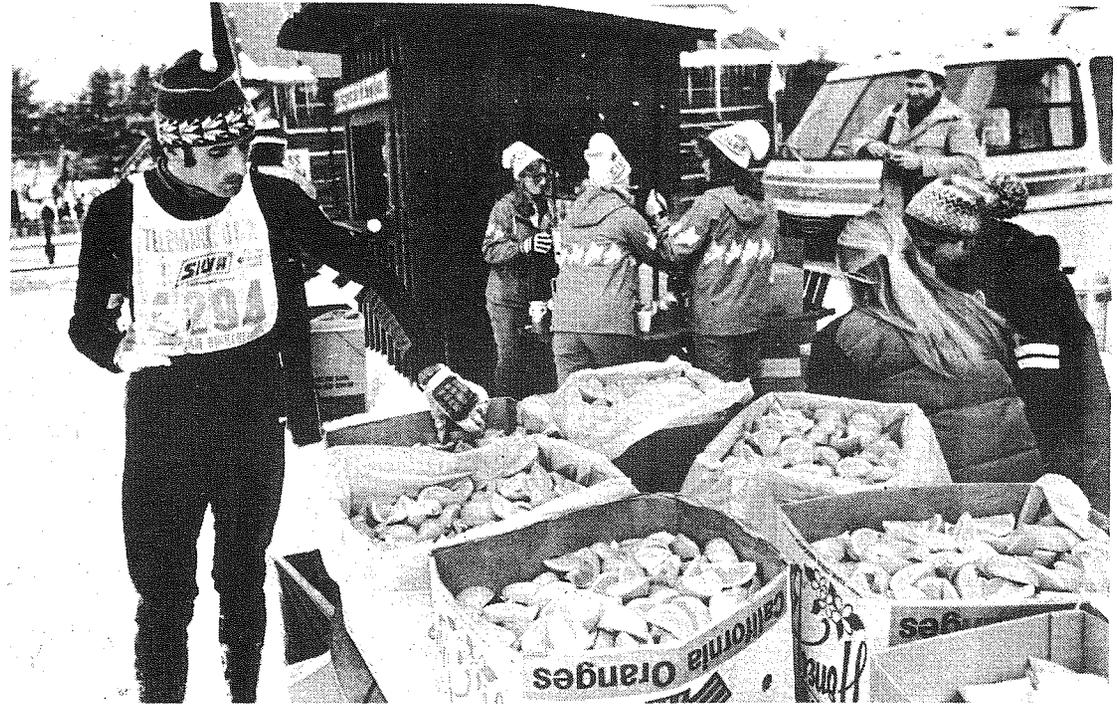

**IT'S OVER**—Cable, Wisconsin skier Darrell Thompson catches his breath after completing 55 kilometers.

**IT'S A LONG WAY UP**—Thousands of skiers struggle up the top of Morgedal as they start on their way towards Hayward and the finish of the 55 kilometer American-Birkebeiner VI. Over 2,700 skiers entered the race.

**VOICE OF THE BIRKEBEINER**—Announcer Peter Q. Graves of Nor Tur calls the shots at the finish line.

**ORANGES AND ERG.** Over 10,000 California oranges and 2,500 gallons of ERG were consumed by the nearly 3,000 American-Birkebeiner VI skiers at food stops along the trail. A special thanks from Telemark to the Northern Lakes Coop for helping pay for the oranges for the race.

**KORTELOPET AWARDS**—Kortelopet racers receiving awards in Telemark's Laukka Theatre.

**HEADRESS FOR EUROLOPETT CHAMP**—Pauli Siitonen receives ceremonial headdress from Ojibwa Medicineman Running Elk.

**IS IT SOUP YET?** Hot blueberry soup provided by Silva Ski awaits skiers at the finish.

# Telemark Academy Skiers Pace Kortelopet

With the mammoth 55 kilometer American-Birkebeiner being run at the same time, it is wasy to overlook the racers in the Kortelopet race. But this year's race, which covered nearly half the distance of the Birkebeiner itself, produced excitement that has never been seen before.

Hundreds of spectators were on hand at the "OO" crossing near Seeley to cheer on the competitors. And it was just a matter of seconds after the first International Birkebeiner competitors came through the Seeley crossing that Telemark Academy skier Kevin Brochman, 18, Stillwater, Minnesota, crossed the finish line to take the 1978 Kortelopet crown.

Brochman finished with a strong 1:32:46.66 — nearly two minutes ahead of Norwegian Oyvind Solvang and Academy teammate Don Hangen.

"Boy, I just wish I could keep going," said Brochman in the finish area. He should get that chance next season when he turns 19, the minimum age for the 55 kilometer race.

The Telemark Academy was well represented, winning five of nine divisions. Along with Brochman, Cable, Wisconsin native Terese Maznio was the first woman to cross the

finish line, finishing in 1:58:10.66 to take the junior girls 15-16 division. Dan Kahhan, 14, Houghton, Michigan, won the junior boys 13-14 race with an incredible 1:39:35.06 — more than 15 minutes ahead of the second place finisher. Academy racer Albert Leger, a Canadian native,

**WOMEN'S KOR-TELOPET CHAMP—** Telemark Academy skier Terese Maznio relaxes after the race.

## Eleven Silver Skiers Carry On Tradition

Six years ago they came to the American Birkebeiner for a variety of reasons, but in 1978, 21 percent of the original American-Birkebeiner skiers have made it an annual commitment to carry on the tradition of completing every American-Birkebeiner ever held.

Out of a potential twelve six-year finishers, eleven registered for the race (the 12th, Ed Van Mullen is in the Peace Corps), eleven crossed the finish line and became the first racers to receive the prestigious silver snowflake pin. Four of the eleven (38 percent) were members of the Twenty Five Percent Club.

All eleven have watched the race grow both in popularity, sophistication and enjoyment. Now drawing from thirty-two states and eleven nations, the starting line-up has changed dramatically from the single row of entrants who pushed off from Lumberjack Bowl on Lake Hayward to Telemark on February 24, 1973.

Karl Andresen, Eau Claire, Wisconsin 4:39:53.11

Fred Constaile, Madison, Wisconsin 6:32:36.40

Charles Dionne, Eden Prairie, Wisconsin 6:26:24.97

John Gannett, Seymour, Wisconsin 6:26:06.21

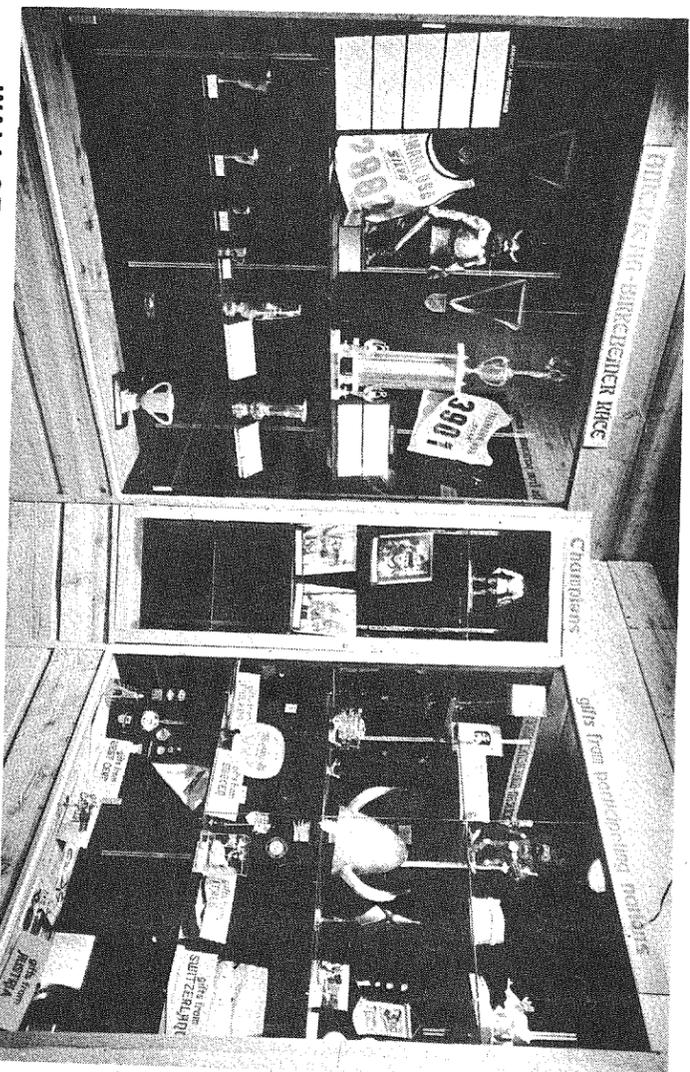

John Holmquist, Minneapolis, Minnesota 6:09:40.07

won the junior boys 15-16 with a 1:39:18.56. Duluth native John Tormondsen rounded out the Academy victory string with a first in the 19 and over men's division with a 1:35:40.72.

Northern Michigan University skiers finished one-two in the 19 and over women's bracket. Donna Rudman, 21, a junior from Ishpeming, Michigan was

first in 2:02:29.71 followed by Sirra Siitonen, an NMU freshman from Finland. Hastings, Minnesota skier Kerry Jung was victorious in the junior girls 17-18 category. Jill Lindstrom of Dundee, Illinois won the 13-14 bracket.

A number of changes are being considered for next year's Kortelopet. Once considered "just another part

**WALL OF FAME.** A historic record of Birkebeiner's past and present can be found in Telemark's new Birkebeiner display case.

## Telemark Builds A-B Wall Of Fame

A permanent display case devoted to the American Birkebeiner is now set up and occupies a prominent corner in the Telemark Lodge Lobby. Race awards including the coveted 55 km medal, class trophies and other special awards will

provide a year round incentive to viewers and potential racers to be at next years competition. Winners of past races and special awards are credited for their accomplishments in a special written history. Photos of each year's overall winner wearing his victor's laurel wreath are found in the center section.

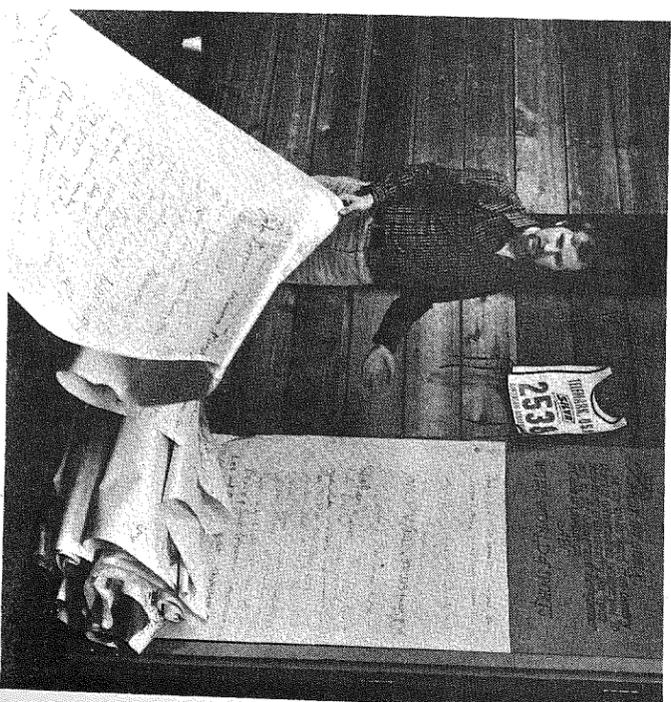

The fellowship of participating nations is well represented by the gifts that

eight nations have presented. Pride is evident not only in their participation but in the cultural backgrounds of the countries. As the history of the

## Good Samaritan Loses Time

Although the injury rate was miraculously low during the American-Birkebeiner VI, there were some skiers who did require assistance. Thanks to the skills of Dr. Milton C. Hanson, Olivia, Minnesota, one skier suffering from hypothermia was rescued and sent for proper first aid care. Dr. Hanson was one of the unselfish physicians who volunteered to wear a first aid pack, "just in case." While his official time stands at 5:57:42.02, he deserves a 10-minute credit for his time-loss as a big thank you for his assistance on the course.

John Kotar, Duluth, Minnesota 4:21:45.89  
Dave Landgraf, Eau Claire, Wisconsin 4:03:18.54  
Wayne Lindskoog, Edina, Minnesota 5:06:25.22  
Nils Meland, Oshkosh, Wisconsin 4:17:50.72  
Ernie St. Germaine, Lac du Flambeau, Wisconsin 5:10:52.90  
Rick Scott, Superior, Wisconsin 4:41:16.59

**HUNDREDS AND HUNDREDS OF SIGNATURES.** A petition, several hundred feet long, was quite an attraction in the American-Birkebeiner Registration room. Addressed to Roone Arledge of ABC Television's Wide World of Sports, the petition read: "We the undersigned cross country skiers of America do petition you to show more American cross country races on ABC Wide World of Sports." The petition will be delivered soon to Arledge in New York.

Rooms are available at the Scandinavian Lodge, which is operated by former U. S. Ski Team coach Sven Wilk, who designed many of Telemark's cross country trails. For more information write: Scandinavian Lodge, Box 5040, Steamboat Springs, Colorado 80477 or call 303-879-0517.

In case of bad weather, the race will be held Sunday, April 23.

# Academy Skiers Make Mark In Europe

## Musolf Earns International Acclaim

A Winter competing in Europe was the highlight of the season for four Telemark Academy skiers. Dan Simoneau, 19, Tracy Valentine, 18, Todd Kempainen, 19, and Joanne Musolf, 21, who returned to America in mid-March following a very successful six weeks of competition. Academy coach Peter Davis, who was also in Europe as an assistant U. S. Ski Team coach, returned to Telemark with his skiers

March 24 following races in New England.

A rather disappointing February turned into a joyful March for Musolf. The East Wenatchee, Washington native skied in only one race at the Lahti World Championships, finishing 30th in the 20 kilometer.

But March dawned brightly for Joanne. Following an impressive sixth in a night race in front of 2,500 spectators in Haapajarvi,

Finland, she came back with an incredible fourth place in the 10 kilometer at the Puijo Games in Kupio, Finland.

"Joanne had a fantastic race," said coach Peter Davis. "And the European press made quite a deal out of it. It was really quite a finish." Even more incredible about the finish was that her time of 31:20.58 was less than a minute slower than FIS Silver medalist Helena Takalo who won the race.

Simoneau and Valentine started their European season in late January as part of a U.S. Ski B-Tour in Sweden. Musolf also went to Europe at that time to begin training with the U. S. Ski Team in preparation for the FIS World Championships in Lahti, Finland, in late February. Kempainen joined Simoneau and Valentine in mid-February.

Results came quickly for Simoneau and Valentine who

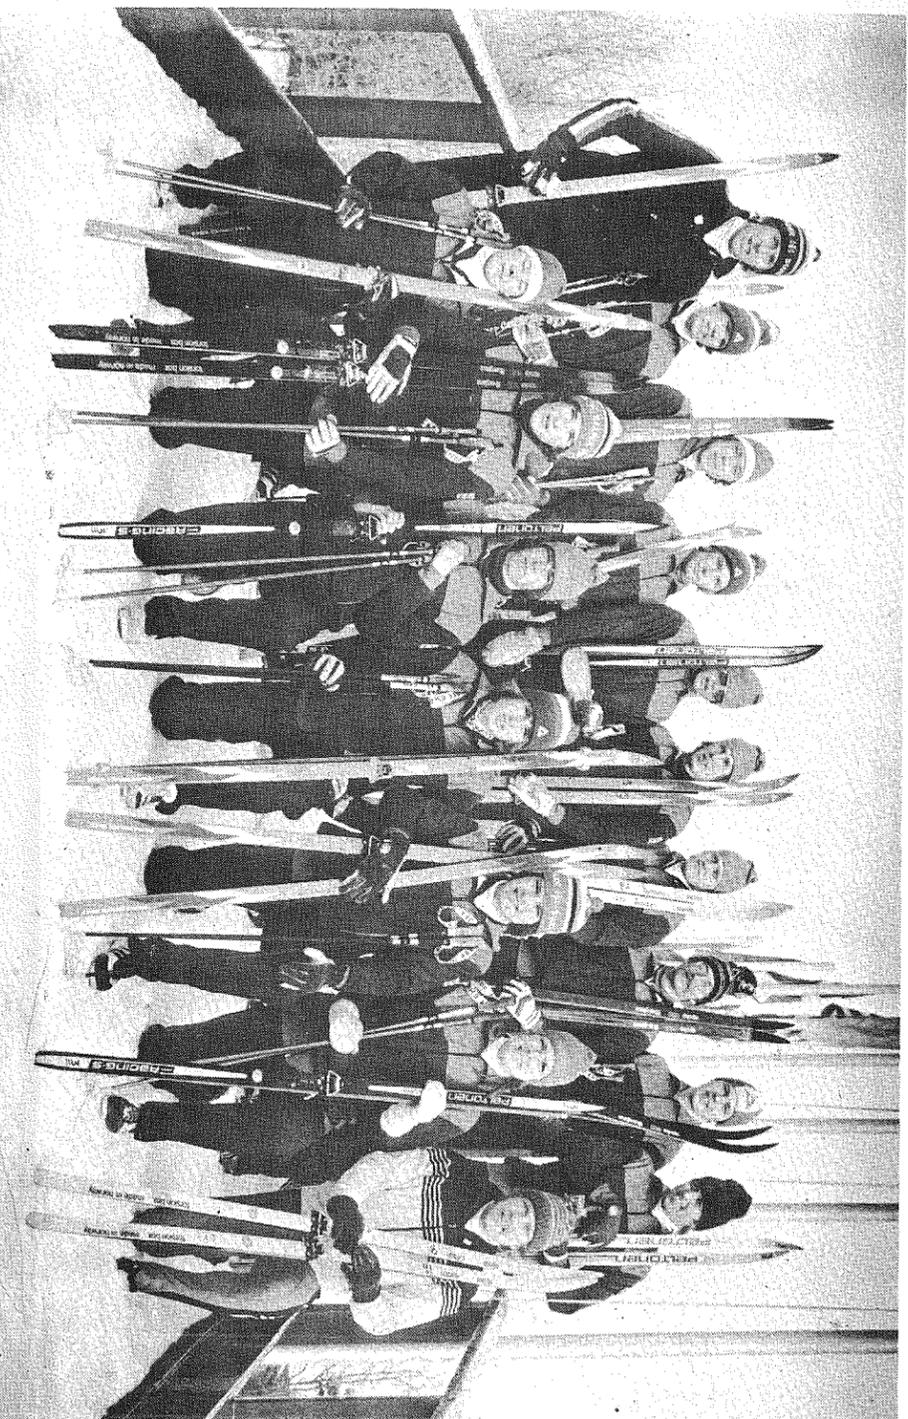

skied well in races in Sweden winning several races. Both skiers did extremely well in the Swedish Junior National Tryouts in late February.

The highlight of the Telemark junior racers was the European Junior Championships, March 10-12 in Murau, Austria. Simoneau led the Telemark squad with finishing 14th in the 15 kilometer race behind the toughest juniors in Europe including Soviet racers. He finished in 44:50.86 in the race won by Giorgio Vanzetta of Italy in 43:26.10. Kempainen was 37th with a 46:48.94.

In the women's 5 kilometer, Valentine skied to 19th, just seconds behind U. S. Ski Team racer Beth Paxson. Valentine ran the course in 17:12.82, just over a minute behind the winning pace.

In the men's relay March 12, Simoneau and Kempainen burst out to a good start, but saw their sixth position drop to eighth in Fritz Koch's final leg. Simoneau opened the 3 x 10 km event, racing into fourth place. Kempainen had an even faster second leg but dropped back to sixth. The American squad did manage to defeat the tough Finn relay team, including several of the racers who did so well at Telemark in December. The Finns finished ninth.

The American women had a good chance in their relay, but had the misfortune of taking a bad turn on the course and did not finish. Betsy Haines opened the relay and broke out in front. She fell victim to a poorly marked course and wasn't prepared for a turn. She was already about a kilometer off track before the mistake was realized. Valentine was to have run the second leg and Paxson the third.

**TELEMARK ACADEMY.** Academy skiers include, front row from left, Terese Maznio, Will Andresen, Chris Parker, Cam Kahan, Coach Nancy Davis, and Roger Pekuri. In back are Director Peter Davis, Don Hangen, Steve Pitmon, Albert Leger, Kevin Brochman, Todd Kempainen, Sten Fieldheim, Duncan McLean, John Tormondsen and Coach Nils Vikander.

## Brochman Skis To Historic Win

**JACKSON HOLE, WYOMING**—18-year old Telemark Academy skier Kevin Brochman, Stillwater, Minnesota, defeated some of the best junior skiers in the country with a victory in the 7.5 kilometer race at the U. S. Junior Nationals here March 6. A week earlier, Brochman won the Kortelolet race at Telemark.

In the 10 km event on March 10, Brochman finished seventh, just 15 seconds out of first place in a very tight race. Swanson won the race, followed closely by Solie. Kahan skied a very good race finishing 28th. Andresen was 39th.

Academy skier Don Hangen, Corning, New York, was sick most of the week. He was unable to compete in the 15 km and had to drop out of the 10 km after the midway point.

## Tormondsen Receives USOC Aid

19-year-old Telemark Academy skier, John Tormondsen, had his trip to the Dannon Cup Series and North American Championships made a little easier with help from a U.S. Olympic Committee (USOC) grant.

The Duluth native was one of five American skiers selected by the U.S. Ski Team and had his travel and expenses paid by the USOC. Other skiers included John Skakett, Scott Taylor, Lance Bohar and Becky Forbes.

Tormondsen, who had a tremendous week at the U.S. Cross Country Nationals in Anchorage, Alaska in early January, opened the Dannon Series a little slow, but came

on strong following the North Americans, finishing well in the final races at Stowe, Middlebury and Brattleboro, Vermont. His best finish came in the final race in Brattleboro when he finished ninth in the 10.8 kilometer— ahead of U.S. Ski Team member Todd Kempainen, also of the Telemark Academy.

"John had a super season," said Academy Director Peter Davis. "It was almost ideal as he peaked for the U.S. Nationals in January and then just worked on a maintenance program until he came on strong to finish the season. The main thing is that he really built his confidence this season."

## Simoneau Third In Dannon Cup

**BRATTLEBORO, VT**—Telemark racer, Dan Simoneau wasted little time upon his return to America, taking third overall in the Dannon Cup series after competing in only three of six races. Simoneau capped off his brief stint on the tour with a first place finish here March 1 in a 10.8 kilometer night race. Series champion Craig Ward was a close second.

Simoneau, who had been competing in Europe since January, raced in the European Junior Championships in Austria March 10-12 before returning to compete in the Stowe, Vermont Dannon race March 15.

Jim Galanes, who took second overall, won the 10 kilometer race followed by Simoneau and Kevin Swigert. Telemark's Sten Fieldheim, skiing his best race of the season, finished very close behind in fourth. Simoneau dropped to fifth in a 15 kilometer race March 18 at Middlebury behind Galanes and Ward. Telemark's Todd Kempainen, who had also just returned from Europe, finished seventh.

### Academy Applications Due June 1

**ACADEMY APPLICATIONS**  
Telemark Academy Director Peter Davis has been receiving applications for the 1978-79 season at a very brisk rate, lately. Davis expects to enroll about 30 student-skiers for the Academy program next year.

"We're looking for skiers with the potential and commitment to the sport, and for skiers who would like to develop that potential in our program."

Davis is especially interested in developing talent within the Central Division.

Any skier interested is urged to contact Davis immediately. All applications should be in by June 1.

For more information write: Telemark Academy, Peter Davis, Cable, WI 54821 or call 715-796-3811.

It was an historic win, of sorts, for Brochman, who was the Central Division's top skier following three tryout races in January and February. His victory was the first win ever by a Central Division special skier in the history of the Junior National meet.

Brochman skied the 7.5 km course in 26:05.33 to edge Rick Solie, Alaska, and Carl Swanson, Northern Division. Telemark's Will Andresen, 16, Eau Claire, Wisconsin, finished 31st in 28:57.38. Dan Kahan, 14, Houghton, Michigan, was 44th in 29:18.16. 82 skiers started the race.

## Bryson, Leger Fare Well At Canadian Juniors

MONT SAINTE ANNE, 20) junior division, skied well in both the 15 and 10 kilometer races, defeating several and Albert Leger both members of the Canadian finished well in the Canadian Junior Team. He finished Junior Nationals here March seventh in the 15 km March 15 15-17. The races were held on in 56:30.79. Daniel Auclair of the Mont Sainte Anne Quebec was first in 50:59.15. Provincial Park trails, about Marvin Strimbold, British Columbia and Richard Weber, Ottawa, were second for the World Junior Championships next year. Bryson, 18, who was Canadian National Junior competing in the older (under Team members finishing

behind Bryson included Martin Vezina in eighth and Grant Kelley 15th. 16-year-old Leger was ninth in the 7.5 km race for the younger division (under 17) in 29:09.79. Northern Ontario division skier Perry Sakkki won the race in 26:28.16. The March 15 race was run the same time as the older division's 15 km race with similar waxing problems. In a 5 km race March 17,

Leger finished 11 despite a collision on the course. "Albert skied a very good race," said Telemark Academy coach Nils Vikander, "And I think he would have been right in the thick of the competition if it hadn't been for a mishap on the trail".

The incident occurred just after the 3 km mark when a skier fell in front of Leger. He managed to avoid the skier but the fallen skier hit Leger's binding with his pole, releasing the ski and sending it flying down the hill. Vikander figures Leger lost at least 16 seconds because of the mishap, which could have pushed him as high as sixth in the standings. The race was won by Sakkki in 14:22.72.

The two Telemark skiers skied for their native New Brunswick team. It was the best performance ever for a New Brunswick squad. The skiers, along with Vikander, returned to Telemark March 23.

## Musolf Takes Dannon Crown

BRAVILLEROKO, VT— in the opening race in Glens Falls, New York, March 7. Joanne Musolf held off a challenge from Leslie Bancroft to take the Dannon Cup race series which ended here March 19. Musolf, who was the winner of the Epoke Cup series in the Midwest last season, tallied 102 points in the six-race series. Bancroft finished with 80 with Canada's Esther Miller finishing third. Pat Engberg was fourth.

The action got off on a high note for Musolf with a victory in the opening race in Glens Falls, New York, March 7. Joanne Musolf skied to victory in a challenge from Leslie Bancroft to take the Dannon Cup race series which ended here March 19. Musolf, who was the winner of the Epoke Cup series in the Midwest last season, tallied 102 points in the six-race series. Bancroft finished with 80 with Canada's Esther Miller finishing third. Pat Engberg was fourth.

Musolf sealed her championship March 18 in Middlebury, Vermont, capturing 7.5 kilometer race in 25:02 ahead of Miller and Bancroft. Valentine finished seventh with Ross 24th.

Musolf began to solidify her position, keeping up her consistency with a third in a 5 kilometer race March 15 at Stowe, Vermont. Miller won the race in 18:18 followed closely by Bancroft. Telemark's Tracy Valentine, finishing one-two in the 5 kilometer race which also counted towards the Dannon Cup. Musolf was a close third followed by Miller.

With 91 points going into the final race March 19 at Brattleboro, there was no one who could catch Musolf. Bancroft won the 5.4 km race in 21:04 but it wasn't enough. Paxson was second, Engberg third and Musolf fourth. Valentine finished fifth with Davis 15th.

It was a particularly satisfying win for Musolf who had problems during competition in Europe. She raced in only one race at the World Championships, but started to make a strong comeback in races following the Lahbi Games. And the Dannon title was certainly a welcome way to wrap up the season.

## Well-Deserved Trip For Denise Green

For Telemark's 25-year old Denise Green, ski racing has been a lot of hard work, with some personally satisfying finishes but not a whole lot of acclaim. That ended on February 25, 1978 when the Telemark Academy skier was the first American woman to cross the Birkebeiner finish line in Hayward, earning her a trip to Norway and the acclaim she so much deserved.

Denise is one of the older members of the Academy. And after years of ski racing, including two at Northern Michigan University, Telemark offers the best coaching she has ever had.

And it's not easy being out of school, 25-years old and spending your winters ski racing. But Denise Green is no ordinary person.

Denise is one of the working Academy skiers. While most of the younger racers are continuing high school and college studies, Denise and a few others are holding down odd jobs while training under the official title of the Telemark Racing Club. Denise has spent her Winter working in the Telemark Lodge laundry. It's not exactly the most glamorous job in the world, but it enables her to do what she loves most—to ski.

And after a Winter of work—both on the trails and off—you can imagine how much a trip to Norway can mean.

"It has been incredible so far," said the Pontiac, Michigan native following the Norwegian-Birkebeiner. "I sure wouldn't mind coming back next year! The people here are all so active—it seems like the trails are more crowded than the streets!"

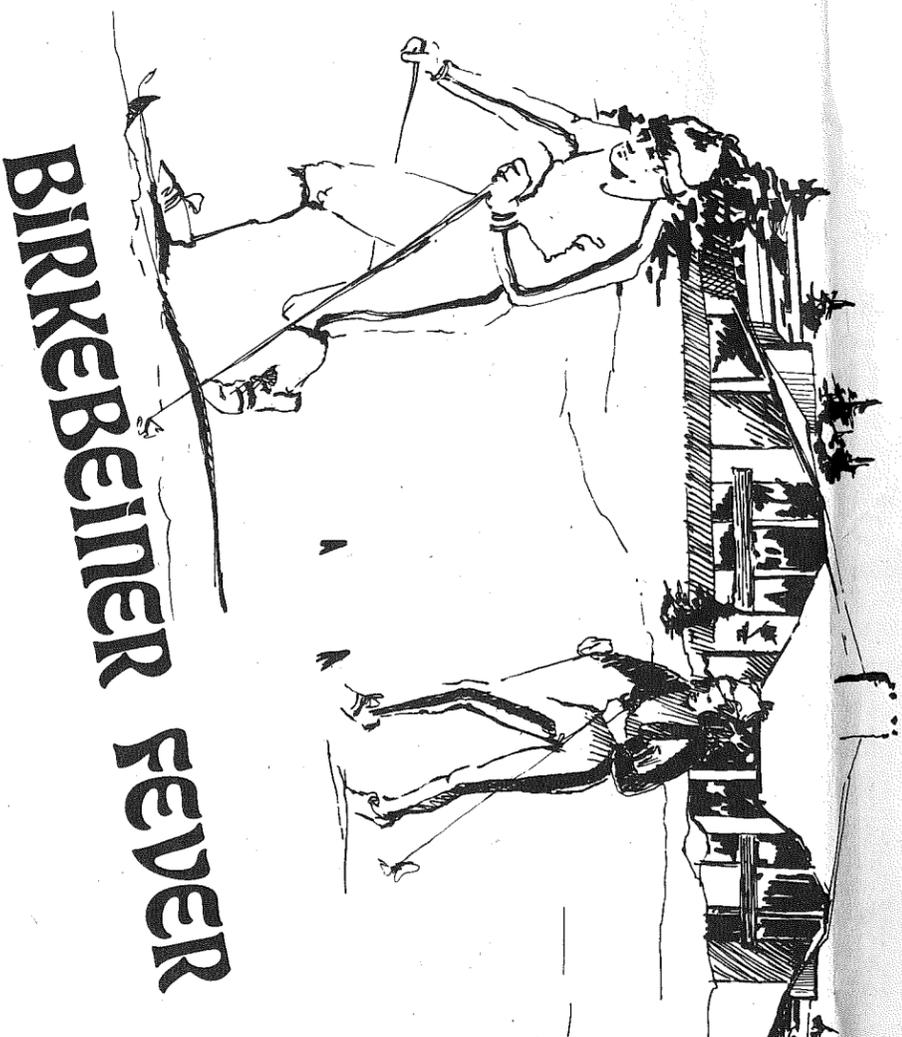

Green's goal in the American-Birkebeiner was to break four hours. She handled that with a couple of minutes to spare finishing in 3:57:04.21—good for 72nd overall. It was the third Birkebeiner finish for Green (second in 1976, ninth in 1977), but this one meant so much more.

It was also the culmination of a very successful racing season. She finished first or second consistently in races around the Midwest and did well against some of the top girls in the country in Eastern races before leaving for Norway. And in mid-February she won the Central Division Senior 20 kilometer championship at Bemidji, Minnesota.

But on March 19, 1978, Denise made her International race debut, racing in the 55 kilometer Norwegian-Birkebeiner. The chance of a lifetime. And she represented Telemark well with a 15th in her age group, finishing the race in 4:31:23.

On April 1 Denise will return to the States and make a brief stop at Telemark. Then it's off to her regular Summer job with the U. S. Forest Service in Escanaba, Michigan.

But when the snow flies next November, it's back to Telemark, and another Winter ski racing.

## BIRKEBEINER FEVER

Psych up to a fever pitch for the American Birkebeiner VII by being part of an entire week of festivities. Excitement will build with Telemark's unique combination of competition and entertainment.

Arrive Monday for six nights of luxurious lodging and top-flight entertainment and six days of the Midwest's finest Alpine skiing or the best Nordic skiing in the country. All of this is included in one low package price of only \$195.00 per person based on double occupancy for cross country skiers, or \$220.00 per person (again based on double occupancy) for downhill skiers.

Get in on the special race "EARLYBIRD" registration list. Registration will begin in September. Be one of the first to enter the AMERICAN BIRKEBEINER VII.

Catch the Birkebeiner Fever at Telemark Lodge—it'll raise your temperature.

Please send me more information about the BIRKEBEINER FEVER package

# \$3-Million Sports Center Will Be Built At Telemark

The Farmers Home Administration announced on March 10, 1978 that it had approved a loan guarantee request by the Telemark

Companies in the amount of \$5,050,000. \$3,050,000 will be used for a new sports center and \$2,000,000 will be used for refinancing and restructuring

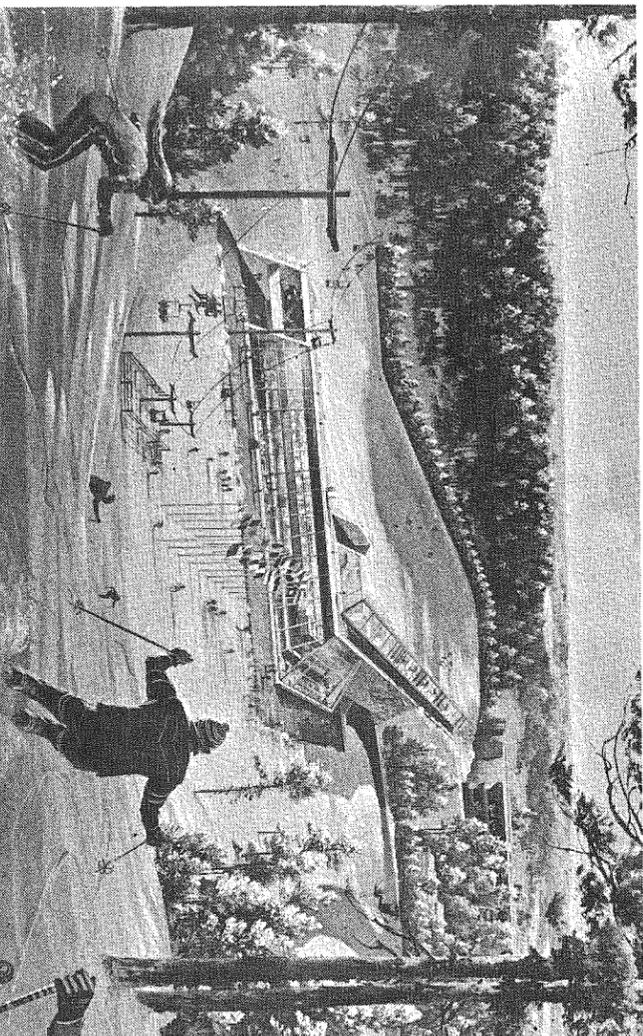

present debt.

The new sports center will replace the old base ski chalet that burned to the ground on March 24, 1977. The new

building will be unique in that it will be mainly underground with only its south side exposed. This south side will be built with slanted glass so solar reactors can be installed for heat and hot water. An underground structure maintains an almost uniform temperature of 55 degrees Fahrenheit year around.

The new structure will be 120 feet wide, 360 feet long and 35 feet high. There will be one large room, 120 x 240, which will have four indoor tennis courts. This space will also be convertible for other athletic events and as a huge meeting room for conventions. There will be peripheral rooms around this large space that will house sports medicine functions such as ski patrol, physical testing, exercise and training rooms. Also in this area will be the nursery and day care center and children's athletic program rooms.

the old base chalet ski a functions—Nordic and Alpr rental shop, cafeteria, dining room, rathskellar, la foyer for boot changing checking. This area will be used in the summer handle cocktail parties large convention groups.

**TELEMAR PLANS NEW SPORTS AND CONVENTION CENTER** — Pictured above is an artist's rendering of the planned \$3-million Sports and Convention Center to be built at Telemark. The structure will be built into an existing hillside and will have indoor tennis facilities among it's many features.

## Volunteers Help

Telemark would like to give a special thanks to the more than 200 local volunteers who helped with the American-Birkebeiner.

Among the groups helping with food stops were the Cable-Great Divide Resort Association, Cable American Legion, Hayward Snomnads, Hayward Lakes Resort Association, Hayward Lions, Hayward Cub Scouts, Hayward Area Recreational Parks, Hayward Boy Scouts, Hayward Civic Club, Hayward Skiskats, Hayward Jaycees, West Hayward Dairy, and the Hayward Chamber of Commerce, which coordinated the food stop operations.

Thanks also to Ed's Service Center of Cable for use of snowmobiles.

## First Aid

American-Birkebeiner first aid officials were very happy to report no serious injuries of any kind in the 1978 race. Even with nearly 3,000 skiers, the only small problems were cases of exhaustion and hypothermia.

A well-staffed first aid operation was coordinated by Don Primley and Rick Anderson of the Telemark Ski Patrol. Around 60 first aid people were stationed on the course along with three ambulances. Two more ambulances were on call. 17 snowmobiles were available with sleds.

A special thanks goes out to the Civil Air Patrol. Around 25 CAP members from as far away as Milwaukee and Minneapolis were on hand to assist with first aid and to provide communication.

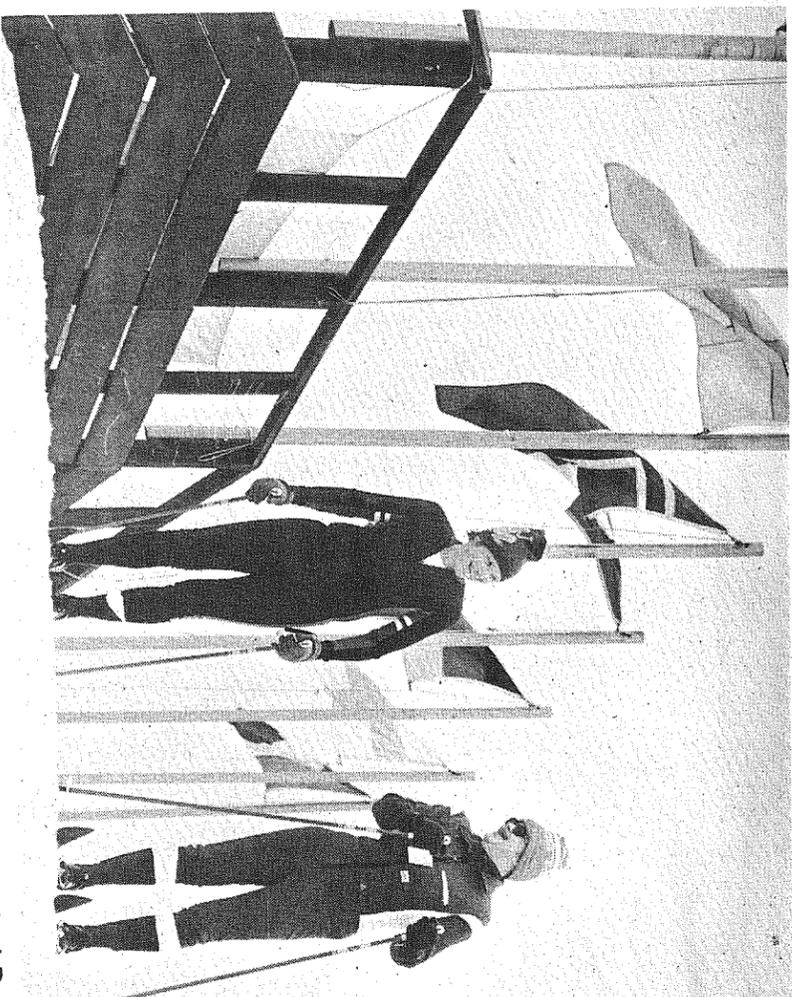

## Telemark Welcomes Southern Skiers

Telemark will be bringing the booming sport of cross country skiing to the Deep South next season with numerous trips being offered to Southern ski clubs.

Well-known Southern ski organizer Mike Fair, publisher of Skier, U.S.A., the most popular ski magazine in the South, recently spent a weekend at Telemark and was highly impressed with the facilities.

Two representatives of the Atlanta Ski Club, the largest club in the South, were also on hand at Telemark recently. Club president Richard Johnson, and the club's leading cross country skier, Dr. William Farrell were both very enthusiastic about bringing a contingent of Atlanta skiers to Telemark next season.

Most groups will be traveling by charter airline and spending five or six days at the Telemark Lodge. One of the things that most impressed Telemark's Southern guests was the complete facilities at

**WHICH WAY FROM HERE**—Atlanta, Georgia cross country enthusiast Dr. William Farrell (left) and Atlanta Ski Club President Richard Johnson pause on Telemark's International Bridge during a weekend of cross country skiing at Telemark recently. The Atlanta Ski Club will be one of numerous Southern clubs to visit Telemark next season.

Telemark including alpine as well as cross country skiing along with the unbeatable facilities of the

Telemark Lodge. "Cross country is really beginning to pick up in the South," remarked

Atlanta's Bill Farrer. "I'm just real excited to get a group of Southern skiers to Telemark next year."

## South Africa Skis American Birkebeiner

While the official result listing lists Neil Dewar's hometown as Oshkosh, Wisconsin, the newly-initiated cross country skier and Birkebeiner finisher is actually from South Africa.

His athletic background in Capetown, South Africa included rugby, cricket and swimming, but snow is rather scarce in that part of the African continent.

Two of his colleagues at Oshkosh, Dr. Nils Meland, a charter Birkebeiner racer,

and Dr. Todd Fonstad introduced Dewar to cross country skiing this season and convinced him to enter the American-Birkebeiner.

With about 150-200 miles of training logged, he skied a very good race. It was a

memorable occasion crossed the finish line unfortunately. It probably be his final country experience as he returns to snowless Africa in June.
