World Loppet League
Elite Standings

NAME	COUNTRY	POINTS
Matti Kuosko	SWE	110
Rudolf Kapeller	AUT	81
Alpo Virtanen	FIN	47

The above skiers were the only ones in the world to satisfy the stringent requirements of the World Loppet League elite championship. To be eligible for the title, elite skiers must compete in no fewer than six member races, including at least one race each in North America, Central Europe and Scandinavia.

Norwegians Dominate Nordic World Cup Competition

by Tom Kelly

Oddvar Braa overcame the stiff challenge of his own teammates, not to mention the illness that kept him out of the starting field for the Telemark/Finlandia Vodka World Cup in December, to take the championship of the first-ever International Ski Federation (FIS) Nordic World Cup. Braa tallied 117 points to outdistance countryman Lars-Erik Eriksen with 98 points and Swede Sven-Ake Lundback with 85. Italian Giulio Capitanio finished with 75.

The spectacular performance by the Norwegians (Ove Aunli was 5th, Anders Bakken 10th, Tore Gullen 13th and Kjell Jacob Sillie 22nd) placing seven skiers in the top 22, enabled the Norwegians to score their most impressive showing in several years. The Norwegians also captured the Nations Cup, a team competition sponsored by Ski Racing Magazine.

But if the Norwegian dominance in men's competition was incredible, the Soviet performance in the ladies' standings was nothing short of spectacular, with six Soviet runners in the top eight. Galina Kulakova edged Raisa Smetanina 123-122 for the title. The Soviets, however, were noticeably absent in the final race at Vysoke Tatry, Czechoslovakia March 18.

It is interesting to note, however, that only Norwegian skiers, along with America's Alison Owen-Spencer, were able to crack the Soviet dominance in the top 10. Marit Myrmal finished fifth, while Owen-Spencer was seventh--an impressive showing for the latest American Olympic hopeful. Young Leslie Bancroft also made herself known, finishing 29th overall, but cracking the top 20 often throughout the season.

Following her win at Telemark, it was an up-and-down season for Alison. She was forced to drop from several races near the end of the season, but came through with flying colors in the season finale taking eighth in the 20 kilometer Czech race.

But Alison wasn't the top North American finisher in that season wrapup. Canadian Shirley Firth, who was a regular top 20 finisher, came in sixth for her best world class finish ever. Firth wound up 15th overall for the season, and along with Joan Groothuysen, gave the Canadians, who haven't even competed in Europe for several years, renewed hope for the 1980 Olympics.

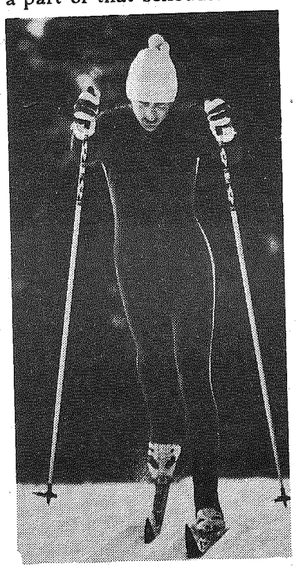
The American men were not as fortunate. Facing a wider range of stiff competition, the best the Americans could do was 23rd overall by Bill Koch with 28 World Cup points. Stan Dunklee was a distant 42nd with only 14 points.

American hopes did get a boost at the 100th anniversary of Norway's Holmenkollen as Koch finished 6th in a non-World Cup race. It was his best international finish since winning the Olympic Silver in 1976, especially important against the star-studded field that competed in Oslo. Koch went on to win two other noteworthy races in Scandinavia in the following weeks--an indication of possible things to come.

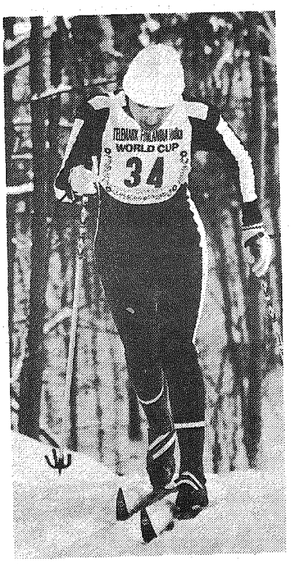
The FIS will be evaluating the first Nordic World Cup season in meetings later this Spring and Summer. According to the adopted plan, next year will be an off year for the World Cup, before returning again for a second trial year in 1980-81.

Regardless of the FIS' decision, it is anticipated that an unofficial World Cup will be held next year as it has in the past. Telemark's Gitchi Gami Games would be a part of that schedule. The Games, America's international ski games, are tentatively scheduled for the second week in December--during the week before the races in Davos, Switzerland.

Oddvar Braa



Alison Owen-Spencer



Shirley Firth

Koch Scores Historic Wins in Late Season Scandinavian Races

SKELLEFTEA, SWE -- Bill Koch, 23, Guilford, VT, won his second international race within a week when he captured the 12.5 km race at Skelleftea, Sweden on March 18. Koch's finish was 18 seconds ahead of Norway's World Cup winner, Oddvar Braa. His performance was outstanding as he competed against the best skiers in the world. Praise in Europe for the U.S. Team is mounting as a strong showing is expected in the 1980 relay. Additionally, Soviet and European sports leaders rank Koch as a very strong contender for the Lake Placid Winter Games.

In Women's World Cup competition, Alison Owen-Spencer, 25, Anchorage, AK, moved into 7th place in the final standings after finishing 8th in the 20 km race in Vysoke Tatry, Czechoslovakia on March 17. This result earned her another 13 points, giving her a total World Cup finish of 67 points.

Nordic Team Director, John Bower, enthusiastically proclaimed, "This is our best season ever! We are elated and extremely proud of our men and women. We are anticipating a strong showing in 1980."

Koch achieved his first international cross-country victory of the season in Vaja, Sweden March 13. The 12 km invitational night park race is known in Sweden as the "World Championships of Park Racing," since the competing field is so carefully selected for quality. Koch outsprinted Poland's double World Championship medalist of 1978, Josef Luszczek, by one second for the victory before a large crowd of Swedish partisans.

According to Bower, "Koch's victory is the first time an American male has won a top international cross-country race. It is an important milestone in Bill's career. Koch's win comes just four days after he finished 20th in the Holmenkollen 50 km event, a distance in the past that has put him out of action for several days." Bill's sixth place in the Holmenkollen 15 km race last week was the best U.S. men's result ever in that event.

Olympic Nordic Team to Train at Telemark

PARK CITY, UTAH -- Members of the 1980 United States Olympic Nordic ski team are planning to spend their final training camp prior to the Lake Placid Games at Telemark, according to U.S. Ski Team Nordic Program Director John Bower. The team will include nine men and six women, along with a contingent of coaches, Bower said in an early May announcement.

The athletes will be training on the over 100 kilometers of trails at Telemark, including a new trail now being designed by 1976 Olympic medalist Bill Koch. The new trail will provide the Olympic skiers with a longer and more moderating course than the tough Telemark World Cup trails. The added variety is expected to provide the skiers with some of the finest training available in the world.

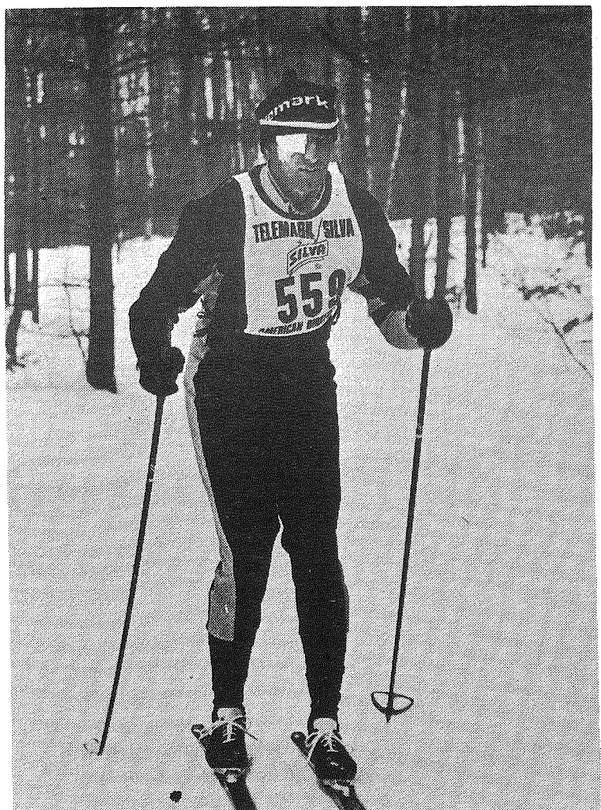
"We have selected Telemark as a site mainly because of our involvement with Telemark over the past four years," said Bower. "The facilities have become very familiar to the athletes and offer comfortable accommodations as well as excellent trails. It's as predictable a site as any in the country--we know what to expect once we get there. And the isolation of the Northwoods will be a good way to relax before the Olympic Games."

The U.S. Ski Team was first introduced to Telemark four years ago, just prior to Koch's outstanding performance in Innsbruck. Lack of snow at Lake Placid that December forced the Olympic trials to Telemark, and sent Telemark on to become one of the leading nordic centers in America and the world.

Bower expects the team to spend the first two weeks in February at Telemark, before heading to Lake Placid for the February 14 opening ceremonies.

Some of the members of the Olympic squad are expected to be named shortly, with the remainder being chosen following the Eastern Dannon Series in mid-January.

Bill Koch



BLIND SKIER HARRY CORDELLOS ran into traffic problems, but is planning to try to complete the Birkebeiner again next year.

Blind Entry Shows Courage in Birkebein

by Ann Hoffman

Harry Cordellos isn't just your average skier. He is determined to become the first blind skier to complete the Telemark/Silva Birkebeiner cross country ski race.

Cordellos, age 41, of San Francisco, California, started the race this year but was taken off the course when he reached the halfway point at Seeley an hour past the cut-off time.

"I was confident from the beginning of the race," Cordellos said. "I was so excited my knees started shaking when I knew I had gone two kilometers without falling."

Cordellos started the race 15 minutes later than everyone else to avoid the congestion going up Morgedal, but he still caught up to the back of the pack.

"I was skiing very comfortably during the five hours I was out there, but there were jam-ups in places and I'd have to wait as long as 40 minutes before I could start moving again.

"I took one or two nose dives in spots where the poling lane was messed up, but on the whole I was feeling good. I wasn't having any trouble, and I wasn't holding up other skiers. Everyone was friendly and gave me a lot of encouragement, so it was a shock when I was forced to drop out," Cordellos said.

Cordellos' guide during the race was Einar Odden, a foreign student at the University of Wisconsin-River Falls and a member of the Association of Norwegian Students Abroad. He and Cordellos skied side by side and worked out a voice communication system. Odden called turns, dips and bumps and would sometimes guide Cordellos' pole on certain areas of the course.

"We're both disappointed about the outcome of the race, but for the most part, we look back on it as a positive experience," Cordellos said. "We had a lot of fun meeting people, and I particularly enjoyed the challenge of skiing on such a difficult course."

At the end of March, Cordellos competed in the Ridder Rennet, or Knights Race, in Norway. He skied in the 25 kilometer cross country race for the blin 1976 and finished with a t of two hours, 25 minutes had had three days of sk experience before that pa cular race and hoped for improved time at this ye competition. He had same finishing time this y but knocked 11 minutes his previous time in the kilometer race.

During the summer, C dellos plans to compete i number of running ma thons. He also just finis writing his autobiograp which is scheduled to be this fall. "I'm sure k busy," he remarked.

If financial arrangeme can be worked out, Corde plans to compete in Birkebeiner again next y According to Odden, the of them will ski much m aggressively and start race when everyone does. "We under-estima ourselves this year," said.

Harry Cordellos says h working towards the real tion of a goal. "I not want to be the first b skier to complete the rac also want to end up wit pretty good finishing tim

First Aid Stations Well-Staffed

First aid officials at the Birkebeiner reported mostly minor injuries which were treated on the scene, but also dealt with several more serious injuries. Only four persons were admitted to hospitals following the race. As in the past, hypothermia was one of the leading problems for skiers with around 30 cases being treated by first aid staffers, one case requiring further treatment.

The first aid operation, co-directed by Rick Anderson and Don Primley, was staffed by about 60 people who were positioned at the first aid stations along the race course. The workers included a number of Emergency Medical Technicians and Civil Air Patrol members. The Great Divide Ambulance team was located at the beginning of the course, with the Sawyer County Ambulance Service at the halfway point and at Old Hayward. Each first aid stop had available a snowmobile with a sled.

The Civil Air Patrol provided fine coordination of the Birkebeiner first aid communication system. The patrol also monitored ambulance traffic and the sheriffs departments of Bayfield and Sawyer Counties.

Special thanks go to Dr. Paul Strapon III, Dr. Michael De Bevec and Mr. Wayne Anderson P.A. of the Hayward Medical Center and Nurses Vilma Kirchner, Laurie Hanus and Kathy Ahlgren for their assistance on the course; also to the Hayward Memorial Hospital and staff for all the back up assistance.

The following injuries were treated at the Hayward Hospital (3 persons were admitted at Hayward; 1 in Duluth). 3 shoulder dislocations, 4 shoulder injuries, 4 superficial hand injuries, 1 fractured rib, 1 eye abrasion, 1 leg injury (stitches), 1 bruised rib (not broken), 1 swollen tongue, 1 serious hypothermia, 1 heart attack.

TONY WISE CONGRATULATES Judy Rabinowitz, the top woman finisher.

CHARGING DOWN THE TRACK are some of the leaders, coming into the halfway point near County "OO."

Four Years toBreak Four Hou

by Phil Van Valkenberg

What does the police chief of Madison, Wisconsin, do for fun during the winter? He races in the Telemark/Silva Birkebeiner, what else? In fact, this was David Couper's fourth Birkebeiner. Past events have found Dave threatening the four hour barrier, but this year he breached it with an impressive 3:35.

He was competing against more than just himself this time. Early on in the Birkebeiner, Dave found himself skiing with his arch rival from numerous local races. They traded place back and forth until Mosquito Brook when Dave's waxing technique paid off as his opponent was forced to stop and add wax.

Attributing his performance to technique break throughs at the On Snow Training Weekend and carbohydrate loading, Dave said, "This was the first year I loaded and also the first year I noticed that the course was downhill during the second half."

Dave wasn't the Couper in the race this His 13 year old son skied his first Kortel They are looking forwa the coming bicycling running season and course, next year's B beiner.

Cycling Champ Skis Birke

by Phil Van Valkenberg

I asked Barbara Hintzen the 1978 Senior Women's National Road Champion, what her motivation was for taking on the Telemark/Silva Birkebeiner. "To me the marathon events are the ultimate events in any participatory sport. I rode in bicycle marathons before I got really serious about racing. Also your ego is tied up in it, you know, kind of like skiing the Birke is the mark of a skier. When I say I ski cross country during the winter I am asked if I have skied the Birke and I want to be able to say yes."

Competing is not new to Barb. She was on the swimming team in high school in Gross Pointe, Michigan. She began cycling at 15, touring in the Rockies with an AYH group and several years later racing in the Detroit area. Cross country started with college at Michigan Tech and two years on the X-C team. Cycling no longer leaves time for school so Barb works construction between bike and ski seasons.

"We had to come south to train at Telemark this year. Houghton-Hancock had a record snow this year, over 260 inches. Even the snowmobilers couldn't go anywhere. It's worth it though. You can ski tracked trails, but Telemark is a step above anywhere I've skied, including the east. You feel if you don't ski at least twenty five K's a day you're just not really taking advantage of the place. There is a trail for every mood and I like the comforts of the lodge, too, of course."

The Birke didn't go too smoothly for the 22 year old cycling champion. She was caught in the bottle necks as were so many other skiers this year. "I waited for over half an hour in some places, but I met a lot of interesting people." We are sure that waiting with Barb made the time go faster for everyone else too.

NBC-TV'S ERIC BURNS [right] interviews Silva General Manager Gunnar Lewander in front of the Telemark Lodge fireplace. The interview was part of a 5-minute presentation on the TODAY SHOW which aired the Monday after the Birkebeiner.

LONG DISTANCE COMPETITIONS, including the Birkebeiner ski race, are among the highlights of national cycling champion Barbara Hintzen's athletic interests.

THE RACE

Standing at the starting line, pros all around;
Hearing tongues from the world around--
stomach churning, tension building, reflecting on former experiences,
Nothing equalling this.
The cannon exploding.
The sound of 4000 skis trampling like thunder.
The hill goes up as high as my adrenalin, the race is underway.
My excitement increases, as does my energy.
As the hours and miles pass by, winning is less and less important.
As I cross the finish line, helicopters whizzing overhead, cameras clicking,
I feel more happy than tired.
PRIDE OVERWHELMS me, and a medal is draped over my shoulders.

Jamey Holstein, age 14
Glencoe, Ill.

Letters to the Editor

(con't. from page 2)

American Birkebeiner
Attn: Tony Wise

Dear Mr. Wise:

As a three-time starter and finisher of the American Birkebeiner, I'd like to summarize my concerns of yesterday's race while they are still fresh in my mind.

1.) Too many racers for the available tracks. Standing in line for 10-15 minutes at two points was discouraging. Either the bottlenecks will have to be corrected, or means of stringing out the masses earlier will have to be found. With icy conditions, and piles of bodies, there were some terrifying moments.

2.) First-aid snowmobiles on the course, going against the traffic pattern, in other words coming at you around hidden curves, were equally terrifying. They should have a horn or siren to announce their presence.

3.) Racers should be told before the race in your various publications that stopping to rest, wax or cleaning of glasses must not be done at the bottom of hills and particularly at the apex of turns at the bottom of hills.

4.) There was a single track across Hayward Lake, and most skiers dutifully got in line for the final leg. This seemed insulting to me after so much effort, so I double-poled my way across the lake on no tracks, and when I crossed the finish line nobody noticed because I wasn't in line! I had to make my presence known five minutes later when I realized what was happening.

5.) More toilets near the waxing tent.

Thanks for another experience.

Rudy Keimowitz, M.D.
Coon Valley, Wisconsin

March 6, 1979

Dear Mr. Berard,

I am taking this opportunity to inform you of my concerns about the recent 1979 Birkebeiner. Like many others, I was disappointed at the number of backups that occurred at several points along the course. I believe that the bottlenecks cost me between 1½ - 2 hours in the event.

I am sure that you are aware of the problem of backups and will be exploring methods to reduce the problem in future Birkebeiners. One suggestion I would offer is to classify citizen racers in some manner, perhaps on the basis of Birkebeiners completed, with the veterans starting in front of the less experienced participants. This year I was in position in the starting area by 8:30 but literally hundreds of skiers crowded in ahead and beside me. Many of these persons were first-timers with no intention of setting a respectable pace and some only intended to ski the first half of the course. The chaos resulting from such crowding detracts from an event as important as the American Birkebeiner.

I would be remiss at this point if I failed to commend those involved in organizing the Birkebeiner; it's reputation as the best organized citizen race in the U.S. is well deserved. As an experienced marathon runner and ski racer, I have never seen a race staged so smoothly - professionally. The trails were in great shape considering the generally icy conditions; there was adequate ERG and orange quarters even for the slow pokes; and the pre-race information and maps in the Birch Scroll were extremely helpful to a Birkebeiner rookie like me.

Thanks for your attention. Best wishes for a bigger and better Birkebeiner in 1980.

Sincerely,
Lee Lovett

Bjorn Arvnes--A Leader Year After Year

by Peter Q. Graves

Birkebeiner enthusiasts praise him as the toughest and perhaps the most durable of all cross country skiers. Fellow skiers call him one of the best all around long-distance skiers since Sweden's Nils Karlsson. Around American Birkebeiner circles his name is mentioned with special respect and his ability unquestioned. His name is Bjorn Arvnes and he has accumulated the highest number of top finishes in the American Birkebeiner.

Consider this, the 33 year old Arvnes has one second, one third, one fourth place finish and one outright win in the 55 kilometer distance classic that runs between Telemark and Hayward. Like fine wine, he seems to improve with age.

Arvnes, during the early seventies was a member of the powerful Norwegian National cross country team. Although he was always competitive, he never really broke into the rarified territory owned by skiers Odd Martinsen, Magne Myrmo, Ivar Formo and Oddvar Braa. He concluded his stint with the Norwegian squad in 1977. He never participated in Olympic competition but the Norwegian native skied, and did well, in events like the Holmenkollen and the Finnish ski games. Arvnes also skied several times in the United States, including a National Night Race series that crossed the Nation. There Arvnes and teammate Erik Rosbek were nearly untouchable, beating members of the U.S. and Canadian Nordic squads.

Arvnes returned to the United States in 1976 to ski in the American Birkebeiner, this time capturing third place, losing to teammate and friend Audun Kolstad by a slight margin. Kolstad and Arvnes spent a great deal of time training together as members of the famed Epoke test team. The team, sponsored by the Epoke Ski Company, tests high performance ski equipment and represents the manufacturer at races worldwide.

Arvnes arrived stateside earlier in 1977, determined to take the AB title. He spent a week traveling and competing on the Epoke Cup series. By the final race of the series, the Birkebeiner, Arvnes was finely tuned. The Norwegian speedster won by a full minute and 44 seconds over his nearest rival, teammate Kjel Petersen.

In 1978 Arvnes came back again to Telemark, first to tour the facilities at the Telemark Academy and then to direct a Twin Cities-Central Division training camp in October. "Skiing should be fun," a smiling Arvnes said to a crowd of youngsters. His enthusiasm for the sport shows. Cross country skiing is more than just a sport, it's a way of life for Arvnes, who is employed as a full-time equipment foreman for SAS at Oslo Airport. Arvnes came back for AB VI, bringing his wife Elen and three year old son Erik. Before the start Arvnes said that this would be a tough race and the likes of top citizen racer Pauli Sittonen and former Swiss National team member Alfred Kaelin. He was right. The race was fast and in a five man sprint for the finish, Arvnes placed a strong fourth.

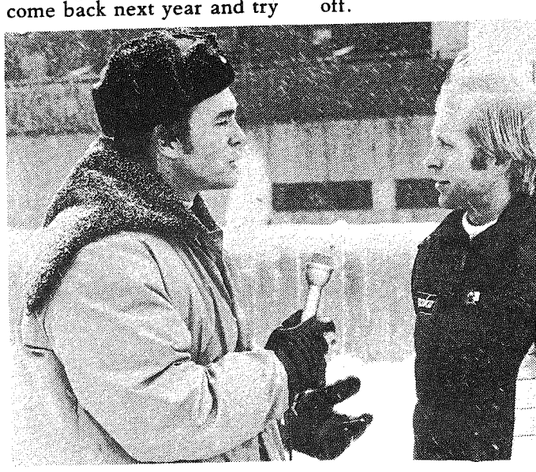
This year Arvnes returned for the Telemark/Silva Birkebeiner and was immediately declared a prerace favorite. He was interviewed by ABC-TV's Tom Jarriel prior to the race and was besieged by members of the media corps for predictions. Arvnes was tight lipped. "It will be a tough race, it always is and with Kappeller and Kuosko this year will be tougher than ever." His prediction proved correct.

The 55 kilometer course was faster than ever and the pace was fierce. Spectators were told in the finish area that a record time was about to be set. Then the spring for the finish began. First was young Arnt Haarstad, a member of the Norwegian National B Team who set a new record. Second place again went to Arvnes, who took his spot next to countryman Haarstad on the victor's stand. Austrian Rudolf Kappeller was third. Close to four thousand other Birkebeiners followed the leaders and finished the race that for all is an individual challenge. For Arvnes, the challenge is to always be on top, for others the challenge of improving times or just to finish is enough.

Arvnes, remains the perfect champion, despite his second place finish. He talks humbly to admirers about the sport he loves. "Remember," he said, "you've got to love a sport to put a real effort into it, and to do well at cross country you have to work at it."

After the Birkebeiner banquet this year Arvnes reminisced about all the kilometers skied and years gone by. "It's a sport that's unique, the people -- you get close to them as competitors and friends, it has a built-in challenge. Now I've got to come back next year and try to recapture my title. keeps me going." You he means it. Bjorn A keeps getting better better.

For him the Birkebei an experience to be sav "I'll be back trying t again next year," he with a twinkle in his eye know, he'll probably off.



FORMER AMERICAN BIRKEBEINER CHAMPIO BJORN ARVNES [right] speaks with ABC-TV's Tom Jarri prior to the race in which Arvnes finished second.

Texan Skis First Birke

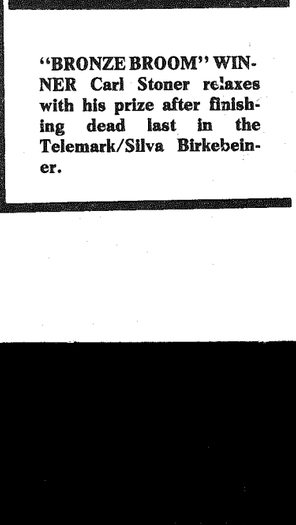
by Phil Van Valkenberg

There weren't a lot of people from Houston, Texas in Birke VII. That didn't stop Carl Hoerger though. He knew that they didn't know what they were missing. Carl is a transplanted northerner just sinking his roots into the Lone Star State as an engineer with Exxon Corporation. A former Michigan resident, he competed on the Michigan Tech X-C team in Houghton, after tiring of downhill crowds.

How does a gulf coast resident prepare for America's most prestigious cross country race? His regimen of bicycling racing and training - he already had 600 1979 miles in by the time he headed north - kept his motor highly tuned. Still when a 10km run the day before the race left him feeling like he had rubber bands for muscles, Carl decided he had better pace himself if he expected to make it back to Texas in one piece.

When the cannon sounded the next morning, it was a different story. "The adrenalin rush from skiing in that huge pack made me forget about my lack of conditioning." Four hours and thirty four minutes later one tired but happy Texan crossed the finish line at Historyland. "I crashed (energy wise) somewhere between 33 and 40 km, but the oranges at the food stops kept me going."

Carl was impressed with the organization of the race. When asked if he would try to bring some friends up next year he said, "some of them are crazy enough to do it."



"BRONZE BROOM" WINNER Carl Stoner relaxes with his prize after finishing dead last in the Telemark/Silva Birkebeiner.

Governor Makes Proclamati

This year marked the first time the state o Wisconsin made special recognition of th Telemark/Silva Birkebeiner ski race as Governo Lee Dreyfus proclaimed Saturday, February 24 1979 as Telemark/Silva Birkebeiner Ski Race Day

Lodge Manager Vince Vesta came up with th idea for a proclamation and approached Senato Dan Theno of Ashland. Through their cooperativ venture, they were able to convince Governo Dreyfus to make the proclamation.

Vesta said he had heard of a race out east tha had a day proclaimed in its honor. "Since th Birkebeiner is one of the biggest events in this par of the country, I figured why not have a da proclaimed here, too," he said.

At the Birkebeiner awards banquet this yea Senator Theno read the proclamation off of a scro and presented it to Tony Wise.

Vesta said he assumes that Birkebeiner Day wi be proclaimed every year from now on.

PROCLAMATION

WHEREAS the People of Wisconsin are proud to especially recognize th seventh annual cross country Telemark/Silva Birkebeiner Ski Race, to be he at Mount Telemark on February 24, 1979; and

WHEREAS the premier citizens' ski racing event of the North America continent, the American Birkebeiner, is the counterpart of the annu Norwegian event between Rena and Lillehammer--the traditional cro country race based on Viking folk lore; and

WHEREAS reliving the saga of two Viking skiers who rescued Norwegian prince during the civil war of 1206, the 55 kilomet Telemark/Silva Birkebeiner Ski Race has become the largest competiti skiing event in all North America, attracting 4500 skiers to the wonderful s country of Wisconsin--the State that boasts the first recorded use of skis North America; and

WHEREAS we join with the people of Northern Wisconsin in warm welcoming our guests from throughout the United States, Austria, Australi Brazil, Canada, Finland, Italy, Norway, Sweden, Switzerland, and We Germany, and

WHEREAS the people of Wisconsin especially commend Tony Wis promoter of the Telemark/Silva Birkebeiner Ski Race, in recognition of h successful efforts to make this world-honored racing event a Wiscons tradition, and we salute Jerry Berard, Chief of the Race, for his at stewardship of this International competition;

NOW, THEREFORE, I, Lee Sherman Dreyfus, Governor of the State Wisconsin, do hereby proclaim Saturday, February 24, 1979

1979 TELEMARK/SILVA BIRKEBEINER SKI RACE DAY in the State Wisconsin with all good wishes to our international guests, our thanks to t race promoters and officials, and our appreciation to the people of Northe Wisconsin whose cooperative efforts make this outstanding event enjoyable and rewarding experience for all.

IN TESTIMONY HEREOF I have hereunto set my hand and caused t Great Seal of the State of Wisconsin to be affixed.

Done at the Capitol in the City of Madison this 21st day of February in t year of our Lord 1979 by Lee Sherman Dreyfus.

Vel. R. Phillips, Secretary of State
as keeper of the Seal she attests to his signature and affixed the seal.

Telemark's Davis to Direct Ski Camp

Telemark Academy Director Peter Davis will be the director and head coach again this Spring for the Fischer/Swix Summer Ski Camps in Quebec and Oregon. Davis, a former U.S. Ski Team member and now a Regional coach, will be assisted by a host of top-level skiers at the two training camps.

The camps will provide expert technical instruction in all phases of skiing and are designed to accommodate any level of skier. Special snow treatment and tracking provide good track skiing, without the traditional problems of slow, Summer snow.

The Eastern Camp will be held June 9-15 at the Gaspesian Provincial Park near Ste. Anne des Monts, Quebec. Skiers will stay at the popular LaGite Hotel. Eastern Division Junior coach Scott Broomhall will assist Davis, along with special coaches Mark Wagner, a 1977 All America NCAA skier from the University of Vermont, Dan Simoneau, the top-ranked junior on the U.S. Ski Team, and Ron Michaud and Alan Johnson, both skiers experienced with skiing in the Gaspe region.

The Western Camp is set for June 17-23 in Bend, Oregon. Davis will be assisted by Bob Woodward, along with coaching help from U.S. Ski Team members Tammy Valentine and Joanne Musolf, along with Mt. Bachelor skier Paul Daley.

The camp is open to men and women, ages 12-50. Cost of each session is $220.00. For more information, write Peter Davis Ski Camp, Box 33, Cable, Wisconsin 54821.

Jorgenson Paces Academy at Junior Nationals

SQUAW VALLEY, CA--Telemark Academy skier Toni Jorgenson took the girls 5 kilometer, and finished second in the 7.5 km to lead the Telemark contingent at the U.S Junior Nationals March 4-10 in Squaw Valley, California. The Sun Valley native was one of nine Telemark skiers competing in the annual event.

Jorgenson, a native of Sun Valley, Idaho, won the 5 km on March 5, edging Kristen Petty of Eastern. Jorgenson covered the course in 17:04.02. Two days later Jorgenson had to settle for second to U.S. Ski Team entry Betsy Haines of Alaska, finishing just over 30 seconds behind with 28:30.82. Jorgenson was competing for the Intermountain Division.

The Academy's Grant Yutrzenka was the top male competitor from the Central Division squad. Yutrzenka finished 12th in the 10 km, and recorded the fifth fastest relay led in the 4 x 7.5 relay.

The other competitors from Telemark included Kristin Gatz, Eastern, Tricia Spurr, Far Western, and Terese Maznio, Dan Kahan, Greg Horner, Paul Beberg and Tim Skeer of Central. Academy Director Peter Davis coached the Central entries.

Thank You!

For the second straight year, Silva Company, a division of Johnson Wax Associates, Inc., was the primary sponsor of the Telemark/Silva Birkebeiner. Telemark would like to express its heartfelt appreciation to Silva for helping support the race through its generous donation of money and manpower. We are truly grateful for the assistance we received from them.

We would also like to thank the following companies that helped in the operation of the race this year:

Heuer Timing Corporation and Control Data provided timing services for this year's race.

NorTur, Inc., American distributor of Norwegian ski products, was on hand to assist with equipment repairs and provided the manpower for the Swix wax stations located along the trail.

Gookinaid provided the E.R.G. drinks available at all the food stations.

Thanks also go to Edsbyn, Inc. and Holubar Mountaineering Ltd. of Boulder, Colorado for their additional assistance.

Duffys Ski Around the World

by Ann Hoffman

Two citizen class skiers from the United States are making quite an impressive showing in World Loppet League competition. Tom and Carol Duffy of Hayward, Wisconsin, have already completed seven of the nine league races. And they will probably be among the first skiers to complete all nine races when they compete in the Konig Ludwig's Lauf, West Germany, and the American Birkebeiner next year. Only a handful of other citizen skiers from around the world has completed as many races.

The Duffys, in their early forties and the parents of 11 children, managed to squeeze their six European races into two vacations this year. Their first stop was the 60 kilometer Dolomitenlauf in Austria's East Tyrol region near Lienz, January 21. From there they traveled to Northern Italy for the 70 kilometer Marcialonga, January 28.

The Duffys returned to North America and on February 4 competed in the 55 kilometer Canadian Riviere Rouge Race held near Montreal, Quebec. Carol finished the event in 5:07:46, while Tom unfortunately got lost on the course and finished in about five and a half hours. A highlight of that competition was the trip to Norway Carol won after finishing first in her age class and having her name drawn in the winners' lottery.

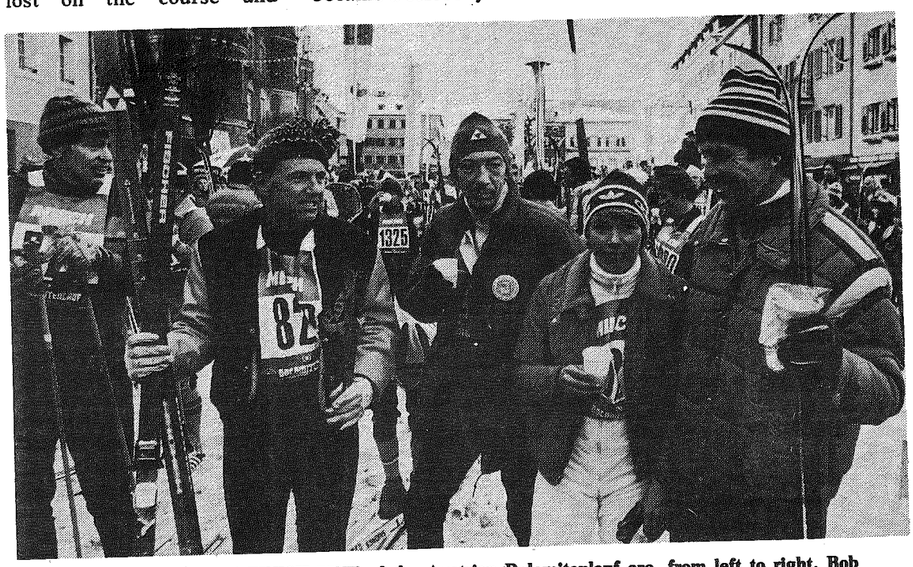
They returned to Europe the end of February, where they completed the 75 kilometer Finlandia Hiihto on the 25th. Just three days later, they competed in an 85 kilometer time trial for next year's Vasaloppet race in Sweden. The couple had planned to enter the regular Vasaloppet on March 4. However, they were informed that no women were allowed. Since his wife could not enter the main event, Tom opted to ski with her in one of the preliminary races over the same course, which holds the same rights for skiers attempting to ski all nine World Loppet League races.

The Duffys then took a ten day break before returning to competition March 11 in the 42 kilometer Swiss Engadin Skimarathon. They wrapped up the season at the 55 kilometer Norwegian Birkebeiner-Rennet, March 18.

Carol was considered to be somewhat of a hero in Sweden when she finished the Vasaloppet time trial race just three days after the Finlandia Hiihto. She also became a celebrity of sorts in Norway when she was the subject of a national television piece and a feature story in one of Oslo's leading newspapers, Verdens Gang.

Tom and Carol worked long and hard towards competition in the league. "Everything we've done for the past year has been aimed at these races," said the Duffys in January. But they also added that they are not out to win. Like thousands of other citizen skiers around the world, they compete for sheer pleasure and satisfaction. They are eagerly looking forward to completing the two races they have not yet competed in, enabling them to earn the prestigious World Loppet League medallion.

Other local competitors have completed the following races: Bob Bergum, Hayward - Dolomitenlauf, Marcialonga, Riviere Rouge Race, American Birkebeiner, Engadin Skimarathon and Birkebeiner-Rennet. Darrell Thompson, Cable - Dolomitenlauf, Marcialonga, Riviere Rouge Race, American Birkebeiner, Engadin Skimarathon and Birkebeiner-Rennet. George Hovland, Duluth, Minnesota - Dolomitenlauf, Marcialonga, Riviere Rouge Race and American Birkebeiner. Jim Moe, Cable - American Birkebeiner, Engadin Skimarathon and Birkebeiner-Rennet.



RELAXING AT THE FINISH LINE of the Austrian Dolomitenlauf are, from left to right, Bob Bergum, Hayward; Darrell Thompson, Cable and Carol and Tom Duffy, Hayward. The group has satisfied the elite requirements of the World Loppet League by having completed at least six of the nine league races.

(con't. from page 31)

hundreds of spectators to join in the fun.

The talented Mayer, who lives in Vienna and works as a product manager for Black and Decker, was clearly the hit of the American Birkebeiner. His easy going style and quick wit was praised by everyone.

The sport of cross country sking has just begun to be recognized by America's media. This year's Birkebeiner coverage was seen on network television shows including ABC's *Good Morning America* and NBC's popular *Today Show*. It's people like Harry Mayer who capture the story of cross country skiing and bring it to the public. All that's needed to do this is a gift of gab, a desire to communicate, inform and entertain and a solid knowledge of the sport and its participants. Take it from me, Harry Mayer has it mastered.

Telemark's Wise Honored by Ski Writers

LAS VEGAS, NEVADA -- Telemark Ski Area owner Tony Wise, one of the driving forces behind the cross country skiing boom in the United States, was awarded the United States Ski Writers Association's "Golden Quill" award. The prestigious award is presented by the organization to an individual who has made "outstanding contributions to American skiing." Wise was honored at the Association's annual meeting here March 17, in conjunction with the annual Ski Industries America Trade Show.

Wise, a native of Hayward, in Northwestern Wisconsin, started Telemark in 1947 and saw his downhill ski area become one of the leading resorts in the Midwest. In 1972 Wise added cross country skiing, an unknown sport at the time, but one of the fastest growing sports in America.

The popular American Birkebeiner was begun in 1973. It grew quickly from a field of 75 that first year, to 4500 this past February 24.

Telemark was also the site of the world's first ever International Ski Federation (FIS) sanctioned Nordic World Cup this past December, with top skiers from around the world gathering to compete on the renowned Telemark trails. The historic race was the culmination of several years work by Wise to help organize nordic competition on a world wide scale.

Another dream of Wise's materialized this past ski season with the organization of the world's nine most famous long distance ski races, including the American Birkebeiner. The World Loppet League attracted over 50,000 citizen and elite-level racers.

Wise was on hand in Las Vegas to accept the award from mid-America regional officers Delores and Budd Hagen of Ski Week Magazine.

TELEMARK'S TONY WISE recently received the "Golden Quill" award for his contributions to American skiing. The prestigious award was presented by the United States Ski Writers Association at its annual meeting in Las Vegas this March.

Telemark Receives Prestigious Award

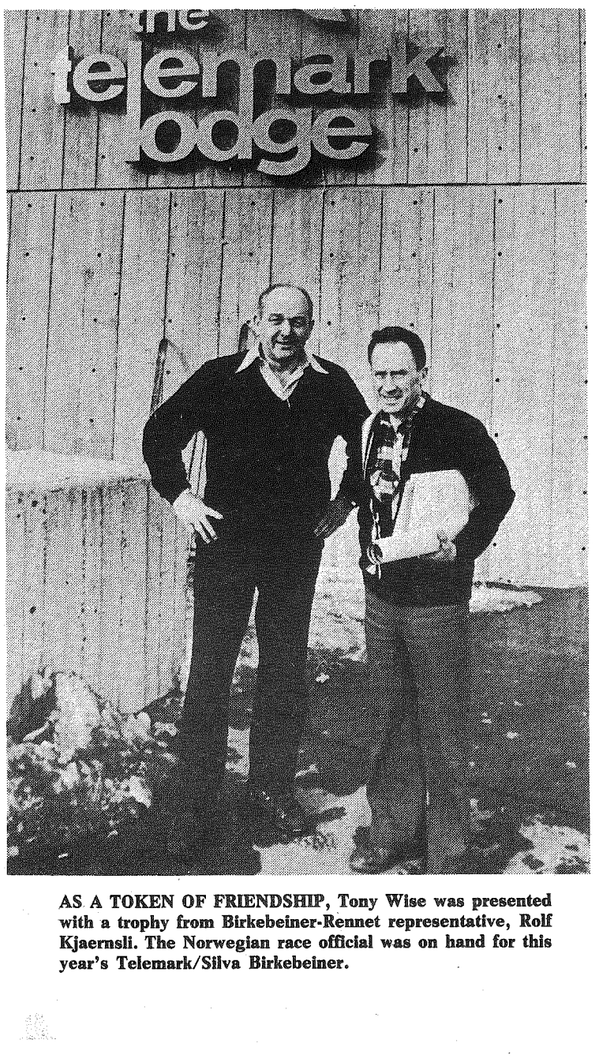
Telemark recently received the 1979 Mobil Travel Guide Four-Star Award, ranking it "outstanding -- worth a special trip." This is the first time Telemark has been named a Four-Star winner, one of the most prestigious honors in the food and lodging industries.

Of the more than 20,000 hotels, motels, resorts and restaurants rated each year by America's leading vacation guidebook, 397 have received the 1979 Four-Star Award.

Only 41 resort hotels such as Telemark were awarded Four-Stars.

The Four-Star Award is determined solely on merit. A special Mobil Travel Guide rating committee reached its decision after carefully reviewing detailed inspection reports from its trained field representatives. All ratings were based on a stringent checklist under the general categories of cleanliness, maintenance, quality of furnishings, facilities and the staff service. Letters and user responses received during the year from the public were also an important part of the final ratings.

According to Arnold J. Fury, manager of travel services for Mobil Oil Corporation, the establishments receiving this award nationwide are recognized for their superior quality and excellence.



AS A TOKEN OF FRIENDSHIP, Tony Wise was presented with a trophy from Birkebeiner-Rennet representative, Rolf Kjaernsli. The Norwegian race official was on hand for this year's Telemark/Silva Birkebeiner.

Pageantry Surrounds Birkebeiner VII

Fanfare and celebration were evident at the Telemark/Silva Birkebeiner this year, making it probably the most festive race ever held here.

World Loppet League Secretary General Tony Wise and Telemark Press Director Tom Kelly attended the Austrian Dolomitenlauf cross country race in January and picked up a number of ideas for adding a European flavor to the American rac

New ceremonies we added to this year's schedu of events, including the pr sentation of the Wor Loppet League flag and th unveiling of the ice sculptu created by Austrian Engr bart Hattenberger.

Huge banners represer ing 11 countries and t World Loppet League we specially made and displa ed at Telemark and at t finish area in Old Haywar

A flag raising ceremo and special five kilomet race featuring top racersfr each nation were held t days before the race at t Hayward finish area.

Music was provided race day by the Drummo High School band, as members played in t Telemark lobby before start of the race and at t finish line.

Another exciting attr tion was the visit of Austr Dolomitenlauf announ Harry Mayer, who was hand to provide comment for spectators at the H ward finish area.

In addition, race win Arnt Haarstad skied victory lap before the h dreds of spectators lined around Old Hayward.

These special events, p the nightly entertainm featured at Telemark, Indian Pow Wow and awards banquets, made an action-packed Birkeb er week.

Birkebeiner-Rennet Official On Hand for American Race

The Norwegian Birkebeiner-Rennet was officially represented at the Telemark/Silva Birkebeiner this year by high ranking official Rolf Kjaernsli. The Norwegian professor is the author of a definitive book on the Birkebeiner-Rennet published in 1972. He spoke at the Birkebeiner awards banquet and presented Tony Wise with a special trophy from the Birkebeiner-Rennet. The complete text of his moving speech entitled, "Ski Trails of the Birkebeiners." follows:

Dear Ski Friends:

You are now the bearers of a great tradition. As you know, the Birkebeiner story goes back to more than 400 years before the landing of the pilgrim fathers at Cape Cod, Massachusetts. I am not going to take up your time by telling the details of that story, as the story has been told before in the Birch Scroll and in other publications.

As it happened, the eighteen month old Prince Haakon who was carried across the mountains, became king, and under him Norway had peace and a heyday in the Middle Ages.

However, the great thing is that the Birkebeiners made a ski trail, which became a challenge to skiers and to organizers of skiing events.

Skiing in different parts of the world has given me a vision of the ski trail, a lonely trail crossing the wilderness, finally uniting people and communities. Being a Norwegian I like to imagine that many of those trails started in Telemark, Norway. It may be hard to visualize a ski trail across the Atlantic, but can't we see it in the wake of the Viking ships, thus conquering the New World and eventually making skiing into a great sport on this continent.

I would like you to know that we in the Old Country are impressed with the way you have taken care of that trail, with what you have achieved over here. I am grateful for your generosity in inviting me over to experience and be part of all this. I congratulate you upon your well-prepared trails, your efficient and friendly organization, and the wonderful weather you laid on for us.

As a token of friendship and a common interest, I would like to call upon Tony Wise, for him to receive on behalf of the American Birkebeiner, from the Birkebeiner-Rennet, a replica of the two original Birkebeiners. It is the trophy gained over there after 20 successful completions of the race.

Good luck for the future - and thank you.

X-C Equipment Preview for 1980

Cross country ski equipment continued its move into the forefront at this year's Ski Industries America (SIA) ski show in Las Vegas. The mid-March event is the ski industry's showcase of products for the upcoming ski season. Nearly 12,000 ski shop owners and staff, from nearly 5,000 different ski shops across the country were on hand for the annual extravaganza.

Clothing manufacturers are apparently moving out of the learning stages, according to Telemark Ski Shop Manager Dave Blake. "Manufacturers are providing suits that fit much better," said Blake, "using stretch inserts and better fabric liners."

Nylon interlock knits will be very popular next year, as will corduroy/poplin combinations. Coordination between suits and accessories is also improving. The full-length suit should find its place next season, both through function and styling, according to Blake.

The 38 mm boot is still the dominant force in the high performance category although 50 mm are also popular. It appears the life of the 75 mm boot may be waning.

Subtle changes in boot components will give better anatomical properties to cross country boots, including shock absorbing rubbers and plastics inserted into the soles, better cushioning of insoles with comfortable arch supports and heel pockets making 1979-80 a more comfortable year for boots.

Synthetic leathers, which will soften with use, breathe better, are more water-repellent, and are as warm as leather, are also becoming more popular.

A new 50 mm toe piece was the only dramatic change in bindings, although some overall improvement was seen. Compatability between bindings has also improved.

Durability has been emphasized more in racing skis, implying that weight is not as important in design. Companies have shown some improvement in quality control, with better matched skis to be available on the ski racks next season.

Skiers purchasing skis at Telemark next season will be able to take advantage of Telemark's new "ski computer." According to Blake, the new machine will test skis for: 1) How the two skis are matched, with any differences in stiffness between the skis being taken into consideration in matching the skis to the skier's strong leg, and 2) The location of the waxing area on the ski, taking into consideration the skiers weight and ability.

The computer will be available for use by all Telemark skiers. Blake feels the machine will greatly aid skiers in finding the ski that is just right for them.

Skis in the light-touring category for next season will be well-suited for both on and off-track skiing, with sidecut on many of them. Improved flex patterns have made many skis much better performers.

One of the drawbacks of the increased quality in boots and skis is price. Skiers can expect to pay a few more dollars next season, but the return in quality should be worth it.

The Telemark Ski Shop will carry a full line of cross country equipment, featuring most all of the top name brands. The Telemark Rental Shop will also feature a line of high performance demo skis for skiers wishing to sample some of the top skis on the market before making their purchase.

TELEMARK'S NORDIC SKI PATROL members link arms at the finish of the Telemark NASTAR Cup. Left to right are Karl Stauffer, Robert Scheer, Fred Scheer, Chris Larson and Pablo Killing.

Austrian Announcer Adds Color to Birkebeiner

by Peter Q. Graves

Howard Cosell may be regarded as the dean of sportscasters, if they do a final analysis on such matters. Close behind Howard may well be others like Frank Gifford, Pat Summerall and Dick Engberg. But hardly anywhere will you see a ski racing announcer in sight. It's not that ski announcers aren't articulate or good looking, but it's just that they haven't had a crack at the big time yet. Thankfully, it's beginning to change.

It's changing because of the likes of people like Harry Mayer--people who bring color and excitement to the sport of cross country skiing. If you were fortunate enough to be at the seventh annual running of the American Birkebeiner, you remember the voice of the amiable Mayer.

Mayer is known as the king of cross country race announcing in Europe and along with his father, they team up to create an unforgettable entertainment package at the Austrian World Loppet League entry, the Dolomitenlauf. The pair has announced at many of Europe's most famous alpine events, as well. When Telemark's Tony Wise heard the pair at work over the Dolomitenlauf sound system, he delightfully proclaimed that they should come to the American Birkebeiner to help with the announcing chores.

Traveling to Wisconsin for the Birkebeiner, the younger Mayer was looking forward to his upcoming announcing job, which began shortly before race time as he provided a local radio station with expert commentary. His knowledge of the sport and his accent made his local debut a smashing success.

Later at the finish line in Old Hayward, Mayer took his place in the announcing booth. He went for nine long hours, never tiring, providing finishers, spectators and the press with progress reports, a dramatic sprint finish commentary and a steady stream of interesting chatter, sometimes even in German. Mayer cheered everyone as they crossed the finish line and asked the

(con't. on page 29)

AS THE WORLD LOPPET LEAGUE FLAG is raised, Tony Wise looks on intently. Also on hand for the pre-race festivities were the official announcer of the American Birkebeiner Peter Graves, famed ice sculptor Engelbart Hattenberger and the Austrian Dolomitenlauf announcer Harry Mayer.

Nordic Patrol Provides Skier Safety

by Ann Hoffman

When someone gets lost or needs assistance on the cross country ski trails, a special group of skiers is called to the scene.

The Telemark Nordic Ski Patrol, in its first year of existence, handles a number of duties and answers a variety of calls. The five-member patrol provides first aid to injured skiers, gives informational assistance, searches for missing skiers, reports trail conditions and takes care of dangerous spots on the trails. Another important part of the job is making sure all skiers have trail passes. And at the end of each day, the patrol sweeps the trails to check for any skiers who may still be lingering.

The Nordic Patrol includes Chris Larsen as patrol leader, Robert and Fred Scheer, Karl Stauffer and Pablo Killing.

According to Cross Country Trail Manager Bob Treland, calls for help are organized from the ski area office. The patrol is notified by radio from the chalet. The patrollers rotate the trail system throughout the day, and when a problem arises somewhere, the closest person is sent to handle it.

The patrol has had Red Cross First Aid training and is qualified to administer it to injured skiers. However, when an injury is of a more serious nature, the Alpine Ski Patrol is called in with its snowmobile.

According to Larsen, skier safety is the patrol's primary responsibility. For the most part, this involves making sure the trails are properly groomed. "Tending to injuries does not take up a large part of our time," Larsen said. "When there are over 500 people out on the trails, accidents will happen. But on the whole, there are usually only one or two minor injuries a week."

Each patroller covers an average of 30 kilometers a day when on duty. According to Larsen, the patrol is able to satisfactorily handle the work load. "If the number of skiers were to substantially increase, however, we'd probably need to increase the number of patrollers," Larsen said.

All five members of the Nordic Ski Patrol are also fine competitive skiers. During the Cross Country NASTAR Championship held at Telemark Saturday, March 10, Chris Larsen had the fastest finishing time, while the other four also won gold patches. Three of the patrollers competed in the Telemark/Silva Birkebeiner this year, and each of them finished in the top 250. Chris Larsen completed the course in 3:40:51.53, Fred Scheer in 3:44:21.08 and Karl Stauffer in 3:50:10.19.

Birkebeiner VII Results Section II

Birkebeiner VII is Greatest Record Breaker

by Paul Robbins

They came from around America and around the world - 36 states and 13 nations. 4,482 penned their names on entry forms, 3,948 waited in restless anticipation for the starting gun, and when it was over, 3,567--a near-record 90.3% of all starters--had crossed their respective Telemark/Silva Birkebeiner and Kortelopet finish lines.

As the greatest record breaker, Birkebeiner VII saw the fastest finishing times, had the largest field of competitors and was represented by more states and countries than ever before.

Birkebeiner VII morning dawned sunny and bright, much to the delight of skiers who had been deluged with rain just two evenings earlier. The track was hard and fast, resulting in record times for top skiers in all age brackets.

At the finish line in the Old Hayward section of Historyland, hundreds of spectators waited in breathless anticipation as announcers Peter Graves and Austrian Harry Mayer called the action. "Ladies and gentlemen, can I have your attention please," shouted Mayer, the race announcer for the Austrian Dolomitenlauf. "This is a fantastic race. We have twenty or thirty skiers all skiing together."

It was a star-studded field with eventual World Loppet champ Matti Kuosko of Sweden, Rudolf Kapeller of Austria, Norway's Bjorn Arvnes and Per Knotten (Magne Myrmo was suffering from illness and did not race), Italy's Ulrico Kostner, Swede Tommy Jonsson, Germany's Heini Simon and a host of U.S. Ski Team entries.

But the names of the leaders changed as fast as Graves and Mayer could relay them to the crowd. "It's now Canadian Ernie Lennie in the lead, taking over from American Fritz Koch," Graves called out, "what a race we have here today!"

As the pack came into view over Lake Hayward the crowd began to shout and scream. It wasn't even noon yet--what a finish. A hard-charging Norwegian, number 578, began skating away from countryman Bjorn Arvnes about 100 meters from the finish, almost slipping and falling once, but hanging on to cross the line in 2:47:27.92--six seconds ahead of Arvnes.

Pandemonium reigned--an unknown Norwegian had beaten the best in the world and was now skiing a victory lap, proudly displaying the victor's laurel wreath. Arnt Haarstad, a 22-year old lumberjack from Rennebu had beaten them all to become the youngest American Birkebeiner champion in history.

As expected, it was a European-dominated finish, with Bob Treadwell the top American, finishing 10th. Finishing behind Haarstad and Arvnes were Kapeller in third, Jonsson, who had won a special 5-kilometer race in Hayward Thursday evening, was fourth, and Knotten fifth. Kuosko, who went on to take the World Loppet championship two weeks later, was seventh, breaking two poles during the race and having to ski with only one for about seven kilometers.

For the first time since 1976, an American woman topped the ladies' field.

UP, UP, AND OVER. Thousands of skiers climb to the top of Mount Telemark at the start of the Telemark/Silva Birkebeiner.

Sawyer and Bayfield County Okay Birkebeiner Trail Widening

On April 17 both the Sawyer and Bayfield County Boards unanimously passed resolutions permitting widening to 30 feet of the existing 15 foot wide Birkebeiner trail running through county forest lands under their jurisdiction.

The two counties are requesting Federal participation for the 38 kilometers of trail widening needed. It will cost $90,000 to complete the project. It is hoped that $72,000 will come from Federal grants. Because Sawyer and Bayfield Counties are economically depressed, they are aided by Federal grants through the Upper Great Lakes Regional Commission for business developments which will help create new employment and a healthier economy.

In 1976 these same counties agreed to permit the building of the original Birkebeiner trail, which cost $100,000 for the 38 kilometers of trail going through their county forest lands. Of this amount, $80,000 came from Federal grants provided by the Upper Great Lakes Regional Commission and LAWCON, (Land and Water Conservation Agency).

The $80,000 of Federal seed money provided in 1976 for the Birkebeiner trail paid off handsomely this year for businesses located in the two counties. Bank deposits on the Monday and Tuesday following Birkebeiner VII increased $1,200,000 over any other winter Monday and Tuesday this season. Banks checked were the Peoples National Bank of Hayward, the State Bank of Hayward and the State Bank of Drummond. Upper Great Lakes Regional Director William Bechtel said this was the best return his agency had ever had on any project in which it had been connected.

The Upper Great Lakes Regional Commissioners, (the Governors of Wisconsin, Minnesota and Michigan) will meet at Bemidji, Minnesota for their quarterly meeting on June 5 to decide which projects will be allocated grant money this year. We are extremely hopeful they will agree to fund the new Birkebeiner project this year with a Federal grant of $72,000.

Birkebeiner VIII to See Many Changes

The reason the American Birkebeiner has become the largest and most prestigious cross country race in North America is because it is being run by a private enterprise company that listens to complaints and corrects them immediately.

The overwhelming desire on the part of our Birkebeiner skier this year is to make sure that Birkebeiner VIII does not have any traffic jams like those experienced at Birkebeiner VII. Telemark wishes to thank all of you who have written or called with your suggestions on how this could be accomplished. We have taken into consideration all of your suggestions and have decided to make the following improvements in the race. The major changes and improvements will be as follows:

1. The Kortelopet (short race) will be run one day prior to the American Birkebeiner.

2. The race will no longer go all the way to the top of Mount Telemark. In the future it will only go half way up Valhalla and then swing downhill on the lower half of Morgedal. The lower half of Morgedal has a much more gentle grade than Stormoen and is only half as long. We believe this change will prevent collisions, falls and injuries and be more enjoyable for most skiers.

Once at the foot of Morgedal (about the one kilometer point) the trail will be widened to 100 feet with approximately 25 tracks for three kilometers on Telemark Company land. This will bring you to the four kilometer point. The next six kilometers will have 12 tracks on a 50 foot wide trail (again on Telemark Company property) out to the ten kilometer point. At the 10 kilometer point the present 15 foot wide track through the Bayfield County and Sawyer County forests will be widened to 30 feet, making it possible to have nine tracks all the way to the finish line.

3. 15 foot wide detours will be constructed on all steep down hills to make the course more enjoyable for beginner and less advanced skiers and also to insure that these skiers will not cause traffic jams for the more advanced skiers.
