SALOMON

FOR THE COMPETITOR IN US ALL

Skiing. Reaching with every stride for precious extra yards. Digging deep for one last burst of energy at the finish line. Or pitting your endurance against the rugged silent peaks. Top level Nordic skiing calls for unrelenting effort and absolute control. Start with a winning boot/binding combination. The Salomon SR901 Equipe and the SR Racing Team. You'll experience more precise heel hold and forefoot freedom with Salomon's patented Internal Fit System. And achieve exceptional lateral stability, a more explosive kick and a longer glide. Get the Salomon SR901 Equipe and the SR Racing Team. Precision matched to offer the ultimate in top level performance, control and comfort.

Gammel Dansk proposes a toast to shoveling sidewalks, soggy mittens, and windchill factors.

It isn't always a winter wonderland out there. So take a survival tip from the Danes: pour yourself a glass of Gammel Dansk Bitters. For generations, the Danes have toasted winter with this tangy blend of 20 fruits and herbs. Drink Gammel Dansk like they do—neat, with your favorite coffee or beer. One sip and you won't want to be snowed in without it.

**GAMMEL DANSK BITTERS
IMPORTED FROM DENMARK**

76 Proof Bitters. Imported by Beam Import Co., Div. of James B. Beam Distilling Co., Chicago, IL.

SKEETESTER

Measures Ski Flex Stiffness

Don't Let the Wrong Ski Flex Slow You Down

Just clamp skis together bottom to bottom with Skeetester and apply pressure till bottoms touch full length. Read flex stiffness on gauge. Chart shows recommended stiffness for skier's weight and snow conditions.

Also finds wax pocket length and location. Used by world-class XC skiers and top XC ski shops worldwide.

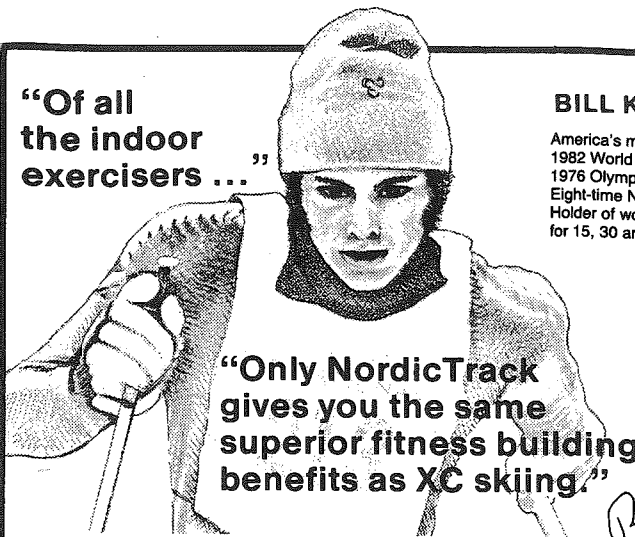

Hand held model \$70
Wall mounted shop model \$105

Heating bills too high?

WHAT DUAL FUEL HEATING CAN DO FOR YOU.

- Reduce home heating costs significantly.
- Increase the efficiency of Cooperative facilities.
- Hold down future rate increases by deferring new power plants.
- Help reduce U.S. dependence on foreign oil.
- Electric heat can keep your home cleaner.

SELECT A DUAL FUEL SYSTEM
TO FIT YOUR NEEDS.

There are a number of Dual Fuel heating systems for you to choose from. Some will be more compatible than others, depending on the kind of system you now use. Your REC or local heating contractor will be happy to explain your options. There's one just right for you and your budget.

THANKS EVERYONE!

The American Birkebeiner Ski Foundation and the staff of the Whoppers American Birkebeiner would like to express sincere gratitude to the volunteers, supporters and sponsors of Birkie '86. Without everyone's support, dedication and hard work, Birkebeiner XIV could not have been the success it was. Thank you, one and all for continuing the tradition and making Whoppers American Birkebeiner XIV the premier cross country ski racing event in North America!

SPECIAL THANKS TO THESE SPONSORS:

LEAF — Special thanks to our major sponsor, Leaf Inc. for sponsoring the Leaf Great American Ski Chase and providing us with so much candy. We were proud to have Leaf's product, Whoppers Malted Milk Balls as the candy of the Whoppers American Birkebeiner.

TELEMARK — Telemark sponsorship of the Kortelopet, all meeting rooms for racer services, power at the finish line and general support and help from everyone the week of the race were critical to making the event happen.

LOGAN MANUFACTURING COMPANY — Special thanks to LMC, the leader in snow grooming equipment in North America, who transformed main street into a race course and groomed the trail which was in super condition.

SUNKIST/SUPER VALU — Sunkist and Super Valu, based in Minneapolis, were the official supplier of thousands of oranges for this year's race.

CHIQUITA BANANAS — Back again this year was Chiquita Brand bananas, a popular food item for racers. Over 20,500 bananas were given out on the course and at the finish.

SOLOMON — Our long-time sponsor, providing demonstrations the week of the race and on-course service to racers.

FISCHER SKIS — The official ski of the Worldloppet provided skis for the repair stations. Fischer factory team members were on hand all week for special demonstrations and pre-race wax clinics.

KARHU SKIS — Representatives from Karhu were also on hand all week for assistance to skiers, demonstrations of equipment and pre-race wax clinics.

SWIX SPORT USA — One of our very important sponsors, Swix officials were responsible for official waxing tents, wax and poles at repair stations, pre-race waxing information and clinics.

GAMMEL DANSK — For the second year in a row we thank Gammel Dansk for their support of the Birkie. Gammel Dansk is an exciting liqueur and is the most widely enjoyed liqueur in Denmark.

THE CREAMETTE COMPANY — One of the Birkebeiner traditions that has developed the past few years is the annual Creamette Spaghetti Buffet Friday evening. Thanks again, Creamettes.

PREGO SPAGHETTI SAUCE — This year we welcomed the sponsorship of Prego who was part of the very successful annual carbo-load pre-race spaghetti buffet.

OH CANADA WILD RICE — The Birkefest dinner was enhanced by the addition of wild rice compliments of Oh Canada.

LAWREY'S — Thanks to Lawrey's for providing the great meat sticks and beef jerky enjoyed by thousands of hungry skiers.

WIGWAM MILLS — The weather conditions this year made it a great year for Wigwam to join us and provide socks and hats for the ski patrol to help keep skiers warm.

GATORADE — The official energy and fluid replacement drink of the Leaf Great American Ski Chase was extremely important this year.

NORTHERN LAKES COOPERATIVE — Solid food is important as the race draws on and this season 24,000 donut holes were available at food stations nearing the end of the race.

**This ski...
this boot...
this binding...
each alone
would be
revolutionary.**

But they're not alone.

They're together. Working as one.

And all you have to do is talk to anyone who's skied the Rossignol Nordic Concept—or, better yet, try RNC yourself—to know why it's the greatest breakthrough since the fiberglass ski. A breakthrough that, ironically, was inspired by Nordic skiing's past.

"Why get locked inside the ski box?"

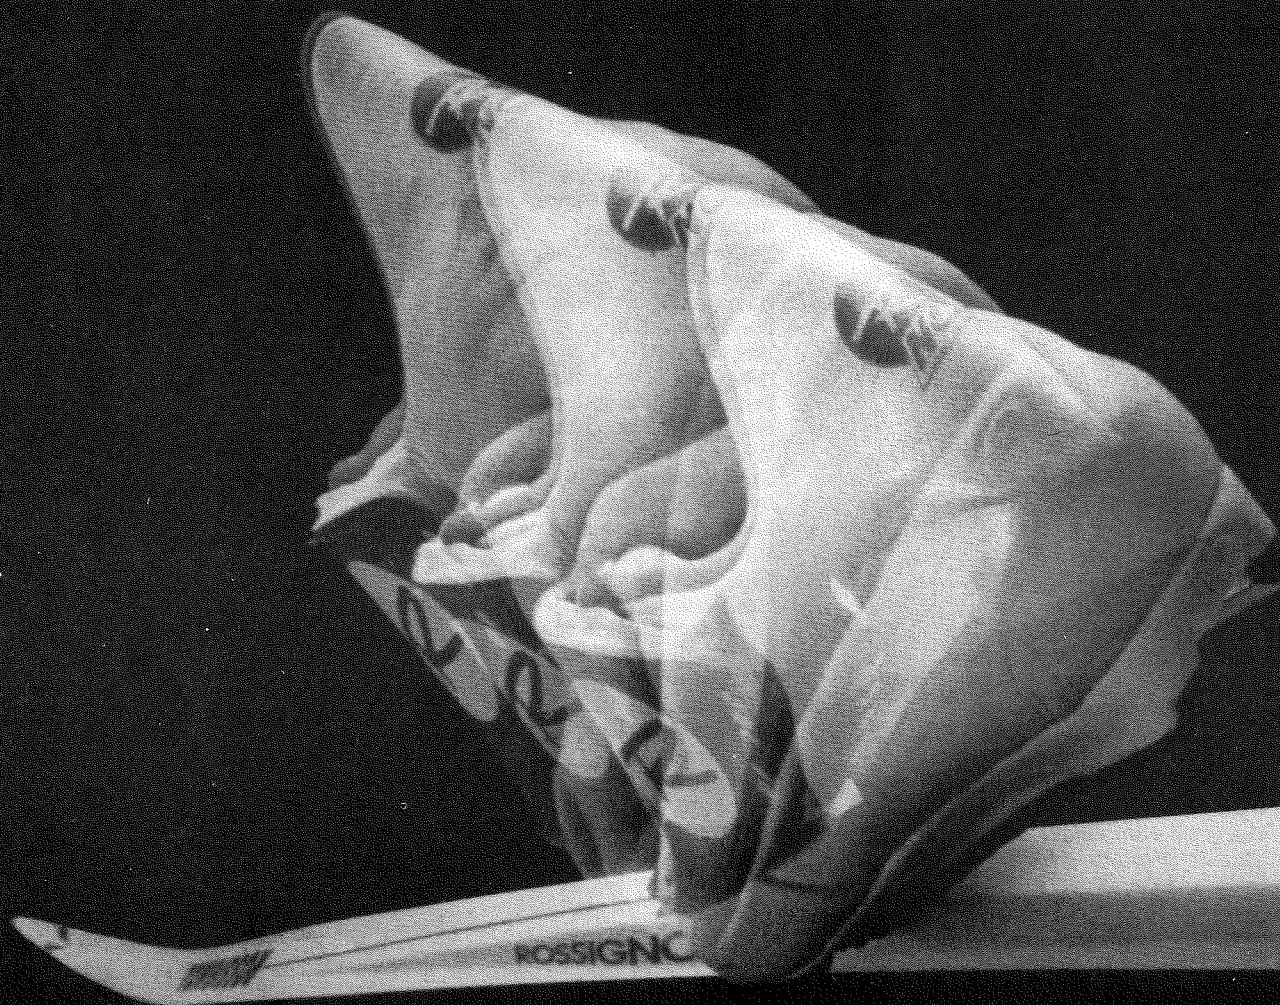

"I was skiing late one day after work," recalls Hubert Nominee, Rossignol's World-Wide Product Manager and a former Nordic champion, "thinking about the problems we faced trying to greatly reduce ski weight, when I had an odd thought: the shape of fiberglass skis has always been like a box, but some wonderful old wooden skis are carved in a weight-saving ridge shape. Why couldn't we adapt that idea to glass?"

Nominee was so intrigued, he stayed up late that night in his workshop, using hand tools to carve out the first RNC prototype.

Nominee's inspiration—to alter the *outer* mass of a fiberglass ski—was revolutionary in ways not even he could have predicted.

"What if...?"

Early on, Nominee tried to adapt existing boot/bindings to the radical new ski. But U.S. Product Manager John King quickly realized that this revolutionary ski demanded an equally revolutionary boot

and binding.

What followed was a three year long R&D effort whose goal was nothing less than re-inventing the three critical components of Nordic equipment.

This ski alone would be revolutionary. Narrower, yet more stable. Lighter yet stronger. Aerodynamic. With a unique central ridge shaped for optimum control, efficiency and power.

Beginning with Nominee's first crude prototype, the RNC ski went through hundreds of variations. Ultimately, a number of startling advantages emerged. Here is an extremely narrow ski that is actually *more stable* than much wider skis. A ski that is lighter, more aerodynamic—yet more durable. A ski whose ingenious central ridge is engineered for superior flex, camber and overall control.

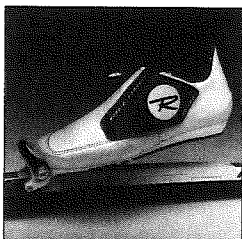

As for boot and binding, exhaustive numbers of prototypes were created based on insightful "What-ifs" proposed by Nominee and King.

What if a binding were to make optimum use of the ski's ridge shape by being *internally integrated*? And what if the boot's sole and upper took fullest advantage of *both the ski's and the binding's new design*?

"More than the sum of its parts."

Test upon test finally yielded a binding that does what no other binding can do: it fully pivots. Giving the skier total freedom of movement for enhanced kick power, with less fatigue.

Because the binding is so minimal, there is less between you and the ski. As one enthused test skier said, "It feels like the ski is part of my foot!" He couldn't get over the new sense of control this gave him.

This boot alone would be revolutionary. Lightweight, warm, waterproof and breathable. Exclusive dual-lacing for snug comfort. Patented sole for positive contact with ski. For more power, total control.

Further, the pivot point is very low, translating into better feel for ski and snow; more efficient use of skier strength.

The RNC boot's upper is ideally married to its fully pivoting binding, with an exclusive dual-lacing system—outer side laces plus internal control straps—for snug comfort with no pressure points.

The patented boot sole is molded for precise, positive contact with the RNC's central ridge. The "feel" during all phases of kick, skate and glide is, as another tester

put it, "perfection itself."

Members of the Rossignol Marathon Team—who've skied RNC since November—call the RNC boot the warmest, driest, most comfortable boot they've ever had. Man-made Clarino™ is one of its secrets: the closest technology has come to duplicating leather's waterproof/breathable/flexible qualities—at two-thirds leather's weight.

This binding alone would be revolutionary. Internally integrated with ski. Adjustable, spring-tensioned mechanism with unlimited pivoting provides totally free feeling and constant control.

"Ski, boot and binding all come together, work together, in a way that's far more than the sum of its parts," says John King. "Every skier who has tested RNC comes back from the course shaking his head and grinning. You just have to ski this whole new world to believe it."

Rossignol Nordic Concept.
For the first time, ski, boot and binding are one.

NORDIC CONCEPT

*First year sales of RNC will, by necessity, be limited to selected markets.

**An Experience
You'll Never Forget**

Remember your first ten-speed bike? Was it a contrast to the one-speed you had before... how it cut miles down to size and freed you from effort to enjoy the experience?

Try a We-no-nah canoe and you'll feel the same magic. Investigate our 25 superb hulls built from Kevlar or fiberglass reinforced with durable new Tuf-weave™. Each unique model has its niche for touring, cruising, tripping or racing. Among our canoes is one to match your interests perfectly, and all have the virtues to make canoeing more rewarding.

We-no-nah canoes: Sleek, agile, light. Designed for effortless performance and built to take the abuse.

In between all those Alps, Switzerland has terrific cross country trails, too.

Combine an alpine experience and cross country skiing in the ultimate getaway—Switzerland. Swissair offers a choice of 6 resorts in the most beautiful vacation destination in the world.

Imagine, over 47 miles of trails in Davos, 90 miles of trails in St. Moritz and the Pontresina area, plus Grindelwald, Gstaad, Engelberg and Crans-Montana. All feature excellent cross country terrain with trails that are clearly marked and tracked—some are even illuminated at night.

Then there are the old villages, the moonlight sleigh rides, the continental cuisine, elegant shops and après ski to fit whatever mood strikes you.

You have a full range of accommodations, too. One week land packages start as low as \$193. Plus a choice of air fares.

And you'll fly the Swissair B747-300, the newest and largest airplane.

swissair 

So this year, leave your mark on the Alps.

I'm ready. Please send a copy of Cross Country Skiing in Switzerland.

ATHLETE'S RELEASE

I, the undersigned, know that alpine and Nordic skiing are action sports carrying significant risk of personal injury. Racing, jumping, or freestyle competition are even more dangerous. I know that there are natural and man made obstacles or hazards, surface and environmental conditions, and risks which in combination with my actions can cause me very severe or occasionally fatal injury. I agree that I, and not the ski area or its staff or USSA (USSEF and USST) and/or its clubs, officials, staff and Whoppers American Birkebeiner race officials, am totally responsible for my safety while I participate in or train for these events.

In consideration of my participation in the Leaf 1987 Great American Ski Chase, I hereby grant permission to photograph me and the right to use such photos for advertising or publicity purposes by N.W. Ayer & Son, Leaf, Inc., USSA, or any representatives of such.

P.O. BOX 911, HAYWARD, WI 54843

All requests to transfer to Kortelopet must be received at Hayward office no later than February 9, 1987.

The FINAL DATE for seed time changes is February 9, 1987.

All entries must be accompanied by the proper fee in order to be pre-registered.

No refunds are allowed for any reason including race cancellation.

Entry fees are not transferable between individuals or to future races.

All racers must have reached the age of 18 by December 31, 1986 to complete the Birkebeiner.

Absolutely no entries will be accepted after midnight, Feb. 20, 1987.

Questions regarding seeding and wave position should be referred to the race office.

Proper identification will be required at race registration (bib pick-up) in order to receive racer packet. Violation of any of the above or other race rules published in the **Birch Scroll** or otherwise distributed to racers will be cause for disqualification and forfeiture of any and all awards. Skiers are advised to consult the official race publication, the **Birch Scroll**, for additional race details, regulations and schedules. All entrants automatically receive the newspaper. In the case the race must be postponed from the original date, it will be rescheduled for March 7, 1987, conditions permitting. It is the responsibility of race entrants to verify any such changes with race headquarters.

Questions regarding seeding and wave position should be referred to the race office.

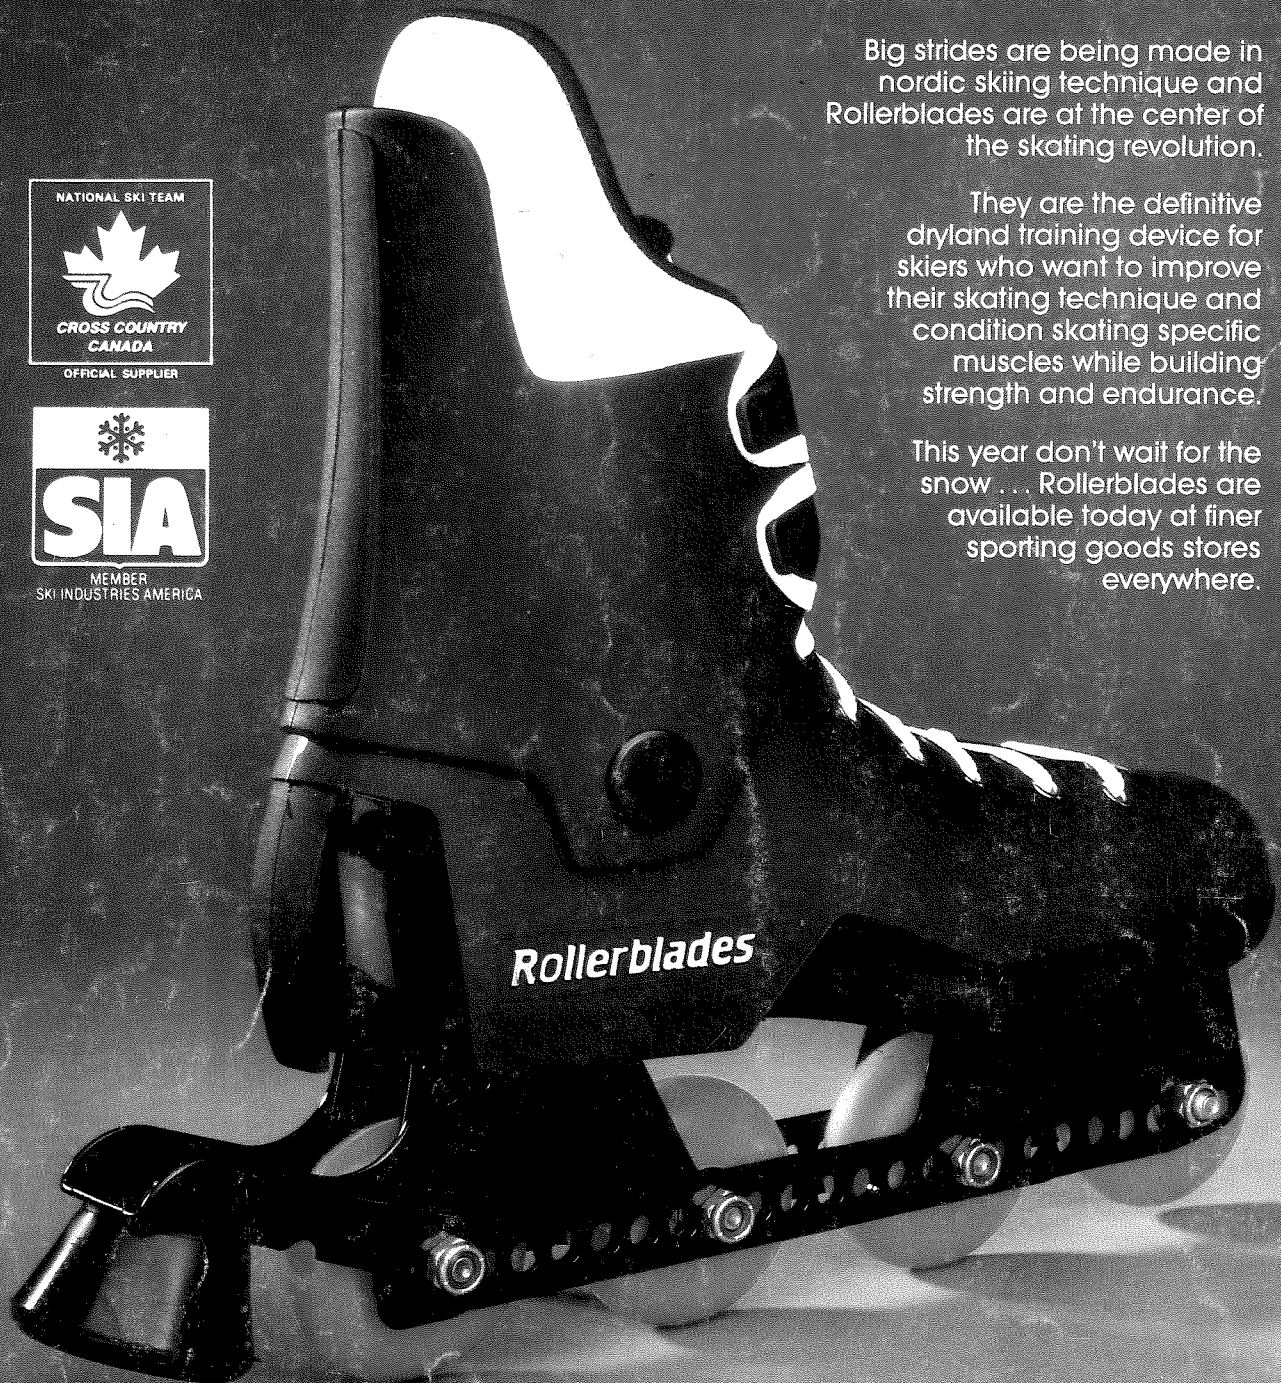

Proper identification will be required at race registration (bib pick-up) in order to receive racer packet. Violation of any of the above or other race rules published in the Birch Scroll or otherwise distributed to racers will be cause for disqualification and forfeiture of any and all awards. Skiers are advised to consult the official race publication, the Birch Scroll, for additional race details, regulations and schedules. All entrants automatically receive the newspaper. In the case the race must be postponed from the original date, it will be rescheduled for March 7, 1987, conditions permitting. It is the responsibility of race entrants to verify any such changes with race headquarters.

SKATING BEGINS HERE

Big strides are being made in nordic skiing technique and Rollerblades are at the center of the skating revolution.

They are the definitive dryland training device for skiers who want to improve their skating technique and condition skating specific muscles while building strength and endurance.

This year don't wait for the snow . . . Rollerblades are available today at finer sporting goods stores everywhere.
